Examining 287(G) United States. Congress. House. Committee on Homeland Security, 2010 *The Latino Migration Experience in North Carolina* Hannah Gill, 2010-11-01 Over recent decades the Southeast has become a new frontier for Latin American migration to and within the United States and North Carolina has had one of the fastest growing Latino populations in the nation Here Hannah Gill offers North Carolinians from all walks of life a better understanding of their Latino neighbors bringing light instead of heat to local and national debates on immigration Exploring the larger social forces behind demographic shifts Gill shows both how North Carolina communities are facing the challenges and

opportunities presented by these changes and how migrants experience the economic and social realities of their new lives. Latinos are no longer just visitors to the state but are part of the inevitably changing long term makeup of its population. Today emerging migrant communities and the integration of Latino populations remain salient issues as the U S Congress stands on the verge of formulating comprehensive immigration reform for the first time in nearly three decades. Gill makes connections between hometowns and the increasing globalization of people, money, technology and culture by shedding light on the many diverse North Carolina residents who are highly visible yet as she shows invisible at the same time.

Undocumented Immigrants in the United States Anna Ochoa O'Leary, 2014-02-25 This two volume reference work addresses the dynamic lives of undocumented immigrants in the United States and establishes these individuals' experiences as a key part of our nation's demographic and sociological evolution. This two volume work supplies accessible and comprehensive coverage of this complex subject by consolidating the insights of hundreds of scholars who have studied the issues of undocumented immigration in the United States for years. It provides a historical perspective that underscores the exponential growth of the undocumented population in the last three decades and presents a more nuanced, more detailed and therefore more accurate portrait of undocumented immigrants than is available in general media. Also included are recommended resources that will serve researchers seeking more information on topics regarding undocumented immigrants.

The contributors analyze the historical and contemporary landscapes of immigration laws, their enforcement and the discourse surrounding these events, as well as the mechanisms, beliefs and ideologies that govern them. In today's highly charged atmosphere, *Immigration and the Law* gives readers a grounded and broad overview of U S immigration law in a single book. Encompassing issues such as shifting demographics, a changing criminal justice system and volatile political climate, the book is critically significant for academic, political, legal and social arenas. The contributors offer sound evidence to expose the historical legacy of violence, brutality, manipulation, oppression, marginalization, prejudice, discrimination, power and control. Demystifying the ways that current ideas of ethnicity, race, gender and class govern immigration and uphold the functioning and legitimacy of the criminal justice system, *Immigration and the Law* presents a variety of studies and perspectives that offer a pathway toward addressing long

and global connectedness This was facilitated by the collected gathering of authors spanning all continents various Christian faith traditions and multiple disciplines as well as a range of methodological approaches The book endeavours to contribute to knowledge production in a number of ways Firstly it suggests the inadequacy of most dominant faith expressions in the face of all pervasive forces of urbanisation and it also provides clues as to the possibility of fostering potent alternative imaginaries Secondly it explores a decolonial faith that is expressed in various forms of justice It is an attempt to offer concrete embodiments of what such a faith could look like in the context of planetary urbanisation Thirdly the book does not focus on one specific urban challenge or mode of ministry but rather introduces the concept of planetary urbanisation and then offers critical lenses with which to interrogate its consequences and challenges It considers concrete and liberating faith constructs in areas ranging from gender race economic inequality a solidarity economics and housing to urban violence indigeneity and urbanisation the interface between economic and environmental sustainability and grass roots theological education
