The Personal Is Political Christine Salkin Davis, Jonathan L. Crane, 2020-07-27 In the wake of Donald J Trump s unprecedented victory and his administration s multi pronged attacks on an array of vulnerable populations a diverse collection of scholars was asked to document the ways in which marginalized peoples have experienced the first years of Trump mayhem The essays in this volume ask us to think through tough narratives of exclusion exile and pain The challenge in this book is to represent the unrepresentable to document in chilling detail how Trump his allies in government and his unshakeable base have weaponized the culture war and threatened the ideals of the Republic This book invites us to experience the scarifying perspective of the marginalized Other to remember to honor all our most human stories that woven together make up the collective us the collective U S The editors also hope this collection suggests a way forward a way to defeat American nativism and a way to end the war on those of us who are on this sad day our nation s public enemies

American Road Narratives Ann Brigham, 2015-06-29 The freedom to go anywhere and become anyone has profoundly shaped our national psyche Transforming our sense of place and identity whether in terms of social and economic status or race and ethnicity or gender and sexuality American mobility is perhaps nowhere more vividly captured than in the image of the open road From pioneer trails to the latest car commercial the road looms large as a form of expansiveness and opportunity Too often it is the celebratory idea of the road as a free floating zone moving the traveler beyond the typical concerns of space and time that dominates the discussion Rather than thinking of mobility as an escape from cultural tensions however Ann Brigham proposes that we understand mobility as a mode of engagement with them She explores the genre of road narratives to show

how mobility both thrives on and attempts to manage shifting conflicts about space and society in the United States From the earliest transcontinental automobile narratives from the 1910s through classics like Jack Kerouac's *On the Road* and the film *Thelma Louise* up to post 9/11 narratives Brigham traces the ways in which mobility has been imagined created and interrogated over the past century and shows how mobility promises and threatens to incorporate the outsider and to blur boundaries Bringing together textual and cultural analysis theories of spatiality and sociohistorical frameworks this book offers an invigoratingly different view of mobility and a new understanding of the road narrative's importance in American culture Choice Outstanding Academic Title from American Library Association **A Passion for Friends** Janice G.

Raymond, 2001 This feminist classic explores the many manifestations of friendship between women and examines the ways women have created their own communities and destinies through friendship **Public Affairs** Paul Apostolidis, Juliet A.

Marwick, 2023-05-30 A compelling firsthand investigation of how social media and big data have amplified the close relationship between privacy and inequality Online privacy is under constant attack by social media and big data technologies But we cannot rely on individual actions to remedy this it is a matter of social justice Alice E Marwick offers a new way of understanding how privacy is jeopardized particularly for marginalized and disadvantaged communities including immigrants the poor people of color LGBTQ populations and victims of online harassment Marwick shows that few resources or regulations for preventing personal information from spreading on the internet Through a new theory of networked privacy she reveals how current legal and technological frameworks are woefully inadequate in addressing issues of privacy often by design Drawing from interviews and focus groups encompassing a diverse group of Americans Marwick shows that even heavy social media users care deeply about privacy and engage in extensive privacy work to protect it But people are up against the violation machine of the modern internet Safeguarding privacy must happen at the collective level
