literature at a timely historical moment and will broaden the field by addressing the students and scholars of comparative literary studies all over the world with significant hints for more inclusive histories of world literature Chinese Theories of Reading and Writing Ming Dong Gu, 2012-02-01 This ambitious work provides a systematic study of Chinese theories of reading and writing in intellectual thought and critical practice. The author maintains that there are two major hermeneutic traditions in Chinese literature the politico moralistic mainstream and the metaphysico aesthetical undercurrent In exploring the interaction between the two Ming Dong Gu finds a movement toward interpretive openness In this the Chinese practice anticipates modern and Western theories of interpretation especially literary openness and open poetics Classic Chinese works are examined including the Zhouyi the I Ching or Book of Changes the Shijing the Book of Songs or Book of Poetry and selected poetry along with the philosophical background of the hermeneutic theories Ultimately Gu relates the Chinese practices of reading to Western hermeneutics offering a cross cultural conceptual model for the comparative study of reading and writing in general Chinese Aesthetics Zonggi Cai, 2004-01-01 This singular work presents the most comprehensive and nuanced study available in any Western language of Chinese aesthetic thought and practice during the Six Dynasties A D 220 589 Despite a succession of dynastic and social upheavals the literati preoccupied themselves with both the sensuous and the transcendent and strove for cultural dominance By the end of the sixth century their reflections would evolve into a sophisticated system of aesthetic discourse characterized by its own rhetoric and concepts Chinese Aesthetics will fill a gap in Western sinological studies of the period It will appeal to scholars and students in premodern Chinese literary studies comparative aesthetics and cultural studies and will be a welcome reference to anyone interested in ancient Chinese culture BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved The Worlds of Classical Chinese Aesthetics Paul R. Goldin, 2024-03-12 This book presents the foundations of classical Chinese aesthetic discourse roughly from the Bronze Age to the early Middle Ages with the following animating questions What is art Why do we produce it How do we judge it The arts that garnered the most theoretical attention during this time period were music poetry calligraphy and painting and this book considers the reasons why these four were privileged Whereas modern artists most likely consider themselves musicians or poets or calligraphers or painters or sculptors or architects the pre modern authors who produced the literature that established Chinese aesthetics prided themselves on being wenren cultured people conversant with all forms of art and learning Other comparisons with Western theories and works of art are presented at due junctures Key Features Addresses Chinese aesthetic discourse on its own terms Provides comparisons of key concepts and theories with examples from Western sources Includes more coverage of primary sources than any other English language book on the subject Each chapter opens with a helpful summary highlighting the chapter s key themes Readina Du Fu Xiaofei Tian, 2020-06-23 This is the first collection of essays in English contributed by well known experts of Chinese literature as well as scholars of a younger generation dedicated to the poetry of Du Fu commonly regarded as the greatest

Chinese poet These essays are engaged in historically nuanced close reading of Du Fu s poems both canonical and less known from new angles and in various contexts and discuss a series of critical issues including the local and the imperial the body politic and the individual body poetry and geography perspectives on the complicated relation of religion and literature materiality and contemporary reception of Du Fu poetry and visual art and tradition and modernity Many of the poems discussed in this book were written in the backwater town of Kuizhou far from Du Fu s earlier residence in the capital city Chang an at a time when the Tang dynasty was going through devastating social and political disturbances The authors contend that Du Fu s isolation from the elite literary establishments allowed him to become a pioneer who introduced a new order to the Chinese poetic discourse However his attention to details in everyday reality his preoccupation with domestic life and the larger issues embroiled in it his humor and his ability to surprise tend to be obscured by the clich d image of the poet sage and poet historian an image this collection of essays successfully complicates The scholarship that went into this collection of essays is extremely solid and fills an important gap in the study of China's greatest poet Du Fu The convincing and compelling collection of articles from distinguished scholars rereads Du Fu from fresh and different perspectives and informs the reader about the amazing power of intertextuality Kang I Sun Chang Yale University This rich and multilayered collection of essays about Du Fu all written by major scholars presents research of the highest quality and originality that succeeds most impressively in enriching and deepening our knowledge and appreciation of this great poet This volume has the potential to engender a new stage of Du Fu studies Antie Richter University of Colorado Boulder Sage Steven Shankman, Stephen Durrant, 2003-09-16 The cultures of ancient China and ancient Greece have exerted immeasurable influence on later civilizations The texts and cultural values of classical China spread throughout East Asia and became the foundation of learning in Korea Japan and Vietnam Greek learning and culture receive credit for many of the intellectual paradigms of the West Probably the one which is most distinctly Western is the tradition of logical proof and the related assumption that as Aristotle put it in Metaphysics 980 we all desire to know In contrast the Chinese tradition as exemplified by Laozi s Dao de jing cautions that through our desire to know we may forfeit wisdom thus engendering a split between knowledge and wisdom The Siren and the Sage is a comparative study of what some of the most influential writers of ancient China and ancient Greece thought it meant to know and whether they distinguished knowledge from wisdom It surveys selected works of poetry history and philosophy from roughly the eighth through the second centuries BCE focusing on the Odyssey the ancient Chinese Classic of Poetry Thucydides History of the Peloponnesian War Sima Qian's Records of the Historian Plato's Symposium Laozi's Dao de jing and the writings of Zhuangzi The intention through such juxtaposition is to introduce foundational texts of each tradition texts which continue to influence most of the world's peoples It is intriguing to ask what awareness if any these distinctive cultures had of each other A considerable body of scholarship comparing ancient Greece and ancient China now exists Scholars are presenting evidence that the two cultures may actually have been

aware of each other's presence even though that awareness was presumably indirect perhaps mediated by the nomadic peoples of Central Asia While not directly contributing evidence the authors argue that comparing the cultures of Greece and China will continue to be an irresistible and important scholarly debate. The book offers a provocative study which is accessible to students and general readers and at the same time contributes to the debate **Fusion of Critical Horizons** in Chinese and Western Language, Poetics, Aesthetics Ming Dong Gu,2021-07-07 This book begins with a reflection on dichotomies in comparative studies of Chinese and Western literature and aesthetics Critiquing an oppositional paradigm Ming Dong Gu argues that despite linguistic and cultural differences the two traditions share much common ground in critical theory aesthetic thought metaphysical conception and reasoning Focusing on issues of language writing and linguistics metaphor metonymy and poetics mimesis and representation and lyricism expressionism creativity and aesthetics Gu demonstrates that though ways of conception and modes of expression may differ the two traditions have cultivated similar aesthetic feelings and critical ideas capable of fusing critical and aesthetic horizons With a two way dialogue this book covers a broad spectrum of critical discourses and uncovers fascinating connections among a wide range of thinkers theorists scholars and aestheticians thereby making a significant contribution to bridging the aesthetic divide and envisioning world theory and global aesthetics The Bloomsbury Research Handbook of Chinese Aesthetics and **Philosophy of Art** Marcello Ghilardi, Hans-Georg Moeller, 2021-07-15 For anyone working in aesthetics interested in understanding the richness of the Chinese aesthetic tradition this handbook is the place to start Comprised of general introductory overviews critical reflections and contextual analysis it covers everything from the origins of aesthetics in China to the role of aesthetics in philosophy today Beginning in early China 1st millennium BCE it traces the Chinese aesthetic tradition exploring the import of the term aesthetics into Chinese thought via Japan around the end of the 19th century It looks back to early practices of art and craftsmanship showing how the history of Chinese thought provides a multitude of artefacts and texts that give rise to a wide range of aesthetic creations and notions Introducing various perspectives on traditional arts in China including painting ceramics calligraphy poetry music and theatre it explores those aesthetic traditions not included in canonic art forms such as martial arts rock gardening and ritual performance Written by Chinese European and American theoreticians and practitioners this authoritative research resource enhances contemporary aesthetics by revealing the possibilities of a Chinese philosophy of art Love and Emotions in Traditional Chinese Literature Halvor Eifring, 2021-09-13 Do all cultures and historical periods have a concept corresponding to the English word emotion This collection of essays is concerned with the closest candidate within the Chinese language namely the term q nq What is the meaning of this term in different periods and genres What are the types of discourse in which it is typically found This volume contains two essays on the notion of q nq in classical sources two on Chan Buddhist usage and two on fiction and drama from the Ming and Qing dynasties An introductory essay discusses the complex historical development of the term

Together the essays may be read as a first step towards a conceptual history of one of the key terms in traditional Chinese **The Lyrical in Epic Time** David Der-wei Wang, 2015-01-20 In this book David Der wei Wang uses the lyrical to culture rethink the dynamics of Chinese modernity Although the form may seem unusual for representing China's social and political crises in the mid twentieth century Wang contends that national cataclysm and mass movements intensified Chinese lyricism in extraordinary ways Wang calls attention to the form s vigor and variety at an unlikely juncture in Chinese history and the precarious consequences it brought about betrayal self abjuration suicide and silence Despite their divergent backgrounds and commitments the writers artists and intellectuals discussed in this book all took lyricism as a way to explore selfhood in relation to solidarity the role of the artist in history and the potential for poetry to illuminate crisis They experimented with poetry fiction film intellectual treatise political manifesto painting calligraphy and music Western critics Wang shows also used lyricism to critique their perilous epic time He reads Martin Heidegger Theodor Adorno Cleanth Brooks and Paul de Man among others to complete his portrait The Chinese case only further intensifies the permeable nature of lyrical discourse forcing us to reengage with the dominant role of revolution and enlightenment in shaping Chinese and global modernity Wang's remarkable survey reestablishes Chinese lyricism's deep roots in its own native traditions along with Western influences and realizes the relevance of such a lyrical calling of the past century to our time Liu Zaifu: Selected Critical Essays Zaifu Liu, 2021-06-17 Liu Zaifu is a name that has already been ingrained within contemporary Chinese literary history This landmark volume presents Anglophone readers with Liu s profound reflections on Chinese literature and culture at different times The essays collected here demonstrate Liu s historical experience and trajectory as an exiled Chinese intellectual who persistently safeguards the individuality and the autonomy of literature refusing to succumb to political manipulation Liu s theory of literary subjectivity has opened ways for Chinese writers to thrive and innovate His panoramic view not only unrayels the intricate interplay between literature and politics but also firmly regards the transcendental value of literature as a significant ground to subvert revolutionary dogmatism and criticize Chinese modernity Rather than drawing upon the existing paradigm he reinvents his own unique theoretical conceptions in order to exile the borrowed gods The Chan Interpretations of Wang Wei's Poetry Jingging Yang, 2007 Wang Wei 698 759 a High Tang poet is widely known as Poet Buddha The book is an attempt to criticize the assumptions about Chan Buddhist implications in Wang's nature poetry While other research investigates how Wang intentionally imparted Chan significance into his poetry this book shows why this is not so and how it lacks evidence
