Psychology Geoffrey Shoemsmith, 2014-03-25 This book provides simple clear in depth explanations of all the topics in the AQA GCSE specification 4180 syllabus but it will prove invaluable to students at many levels on many courses and to the independent reader It can be used as a stand alone home study course as a classroom text as a reference text or just for pleasure for those who love to think about what makes people tick Psychology describes up to date research as well as some classic psychology studies and even debunks one or two psychology research myths It leads the reader through all the topics in the syllabus as a teacher would in a classroom setting Topics are presented as a series of lessons followed by Check Your Understanding sections which are designed to help you check and retain the information in each lesson An assessment record provided at the end of the book will help you keep track of your progress Lessons are interactive with many opportunities to jot down your thoughts and reactions reflect on how a topic relates to your own experience discuss with other people and become

more involved with the material presented Students can pinpoint the topics they are studying for GCSE by using the table mapping the GCSE specification against the lessons in this book For those studying outside formal classrooms there are guidelines about how best to approach your studies The book assumes that readers have no previous knowledge of psychology and among the topics covered are Conformity and Obedience would you press a button to kill someone just because you are told to do so Many people would it seems Sex and Gender do girls and boys men and women behave so differently If so why Memory how does memory work and how accurate is it Non Verbal Communication do we reveal our true feelings in our body language Development of Personality what exactly is Anti Social Personality Disorder Prejudice and Discrimination are we bound to discriminate against people who are unlike us Learning how to remove your fear of spiders snakes flying open spaces or anything else using the principles of learning Aggression is aggression born into us Is it in our hormones Or do we learn to fight Research Methods and the Ethics of Psychology psychology is based on evidence not just ideas But what type of study constitutes good evidence and how should we treat the people in our studies *AS Psychology Unit 1: Cognitive Psychology, Developmental Psychology, Research Methods* Nicholas Alexandros Savva, 2014-10-28 The exam books have been carefully written using student friendly language and a layout you will find easy to understand Each topic has been broke down into EXAM NOTES which are more concise than general psychology text books but more comprehensive than standard revision guides These books have been specially developed and written by experienced teachers and examiners to help students achieve the best possible grade in their psychology exam Reduce frustration All exam notes are presented in an easy way for you to learn Prevent nail biting No more I don t get this Key theories and studies are written in an easy peasy friendly way Prevent Hair loss Don t pull your hair out over the evaluation part We have written it all for you Reduce panic attacks We have given you lots of exam questions at the end of the exam notes to practise to prevent shock in the real exam if you haven t seen any before Prevent confusion Use the revision checklist as you study to tell you what and how much you need to know Visit www.psychologyzone.co.uk the only dedicated A Level Psychology website which has over 1000 exam questions and model answers exam notes exam advice and much more Register onto the website and use the examGenerator tool You can search for exam style questions with model answers or mark schemes and create your own revision or mock paper *Language and Thought* Nick Lund, 2014-04-04 This book fulfils the need for a clear overview of this area of cognitive psychology which encompasses both language and thought Focusing on goal directed thinking and decision making Nick Lund looks at the relationship between our grasp of language and our problem solving abilities Different positions on the issues are contextualised and discussed in a way suitable for the AQA A A Level syllabus Supplementary detail means that the book will also be valuable to other A Level specification candidates and undergraduates coming to this area for the first time **Revise Psychology for GCSE Level** Diana Jackson-Dwyer, Craig Roberts, 2014-01-27 This is a comprehensive student revision guide for those taking the GCSE AQA Psychology exam It

summarises the specification material clearly and attractively enabling students to easily digest and retain the information Packed full of revision tips and techniques the book includes a number of unique and helpful features Overviews of the AQA specification content Summaries of the major research studies Practical and innovative suggestions for revision techniques at the end of each chapter Example exam questions and model answers A separate chapter dedicated to preparing for the exam giving practical advice on getting organised techniques for maximising revision time and advice on structuring exam time appropriately for optimum performance A comprehensive glossary of important terms and their definitions to aid understanding of the material **Revise Psychology for GCSE Level** gives excellent guidance not only on how to pass the exam but also on how to avoid the panic and pitfalls that so many students face at exam time Although a companion to the bestselling **Psychology for GCSE Level 2nd edition** by Dwyer and Roberts this revision guide can be used alongside any GCSE psychology textbook

Aural and the University Music Undergraduate Colin R. Wright, 2016-12-14 Research indicates that aural skills are vital in developing musical expertise yet the precise nature of those skills and the emphasis placed upon them in educational contexts merit closer attention and exploration This book assesses the relevance of aural in a university music degree and as a preparation for the professional career of a classical musician By way of the discussion of four empirical studies two main areas are investigated firstly the relationship between university music students aural ability and their overall success on a music degree programme and secondly the views of music students and professional musicians about aural and its relevance to their career are analysed The subject is investigated particularly in the light of the current socio educational background of the past fifty years which has greatly influenced the participation of music and the study and development of musicianship Many related issues are touched upon as part of the research for this project and these emerge as relevant topics in the discussion of aural Apart from students and musicians views on training and singing aspects considered include the role of improvisation memorisation and notation examinations absolute pitch and the affinity with language all of which have a part to play in the debate about the importance of aural
