Books Notes **Politics and the Slavic Languages** Tomasz Kamusella, 2021-06-17 During the last two centuries
ethnolinguistic nationalism has been the norm of nation building and state building in Central Europe The number of
recognized Slavic languages in line with the normative political formula of language nation state gradually tallied with the
number of the Slavic nation states especially after the breakups of Czechoslovakia the Soviet Union and Yugoslavia But in the
current age of borderless cyberspace regional and minority Slavic languages are freely standardized and used even when
state authorities disapprove As a result since the turn of the 19th century the number of Slavic languages has varied widely
from a single Slavic language to as many as 40 Through the story of Slavic languages this timely book illustrates that
decisions on what counts as a language are neither permanent nor stable arguing that the politics of language is the politics
