## **Robo Sapiens English Edition:**

Robo Sapiens Japanicus Jennifer Robertson, 2018 Japan is arguably the first postindustrial society to embrace the prospect of human robot coexistence. Over the past decade Japanese humanoid robots designed for use in homes, hospitals, offices, and schools have become celebrated in mass and social media throughout the world. In *Robo sapiens japanicus* Jennifer Robertson casts a critical eye on press releases and public relations videos that misrepresent robots as being as versatile and agile as their science fiction counterparts. An ethnography and sociocultural history of governmental and academic discourse of human robot relations in Japan, this book explores how actual robots, humanoids, androids, and animaloids are engineered in ways that reinforce the conventional sex/gender system and political/economic status quo. In addition, Robertson interrogates the notion of human exceptionalism as she considers whether civil rights should be granted to robots. Similarly, she juxtaposes how robots and robotic exoskeletons reinforce a conception of the normal body with a deconstruction of the much invoked Theory of the Uncanny Valley. *Robo Sapiens: Tales of Tomorrow (Omnibus)*

Toranosuke Shimada, 2021-11-23 In the future, robots are more than machines. Autonomous cyber persons with AI brains are part of society, interacting with humans while developing their own culture. In fact, they may be surpassing humans as biological homo sapiens have begun to die out and give way to robo sapiens. But are humans truly disappearing, or are robots the newest form of humanity? This millennia-spanning speculative science fiction manga of interconnected stories, both human and robotic, was awarded the Division Grand Prize at the 2020 Japan Media Arts Festival. **Robo Sapiens**

Peter Menzel, Faith D'Aluisio, 2000 Information about intelligent robots and their makers, including photographs, interviews behind the scenes, information, and technical data about machines that is easy to understand. **The Robosapien Companion**

James Samans, 2007-04-29 You'll love *The Robosapien Companion*. Tips, Tricks, and Hacks, whether you're a robotics expert or beginner. And whether you own a Robosapien or not, you'll learn about the workings and theory of this fun robot. An owner of several Robosapiens himself, author Jamie Samans covers everything from basics like diagnosing and testing your new Robosapien to advanced topics like hacking and modifications. He thoroughly covers what he calls the curiosity and creativity of this famous bot. The book functions as both a practical user guide and an interesting read about the theory behind the machine. BEAM robotics: BEAM stands for biology, electronics, aesthetics, and mechanics. You'll learn about Robo's 67 unique functions and get the full scoop on the line of Robosapiens: the Robopet, the Roboraptor, and the bipedal Robosapien V2. By the book's end, you'll come to master your V1 or become fully prepared for the exciting upgrades included in V2. **AI and Common Sense**

Martin W. Bauer, Bernard Schiele, 2024-06-28 Common sense is the endless frontier in the development of artificial intelligence, but what exactly is common sense? Can we replicate it in algorithmic form, and if we can, should we? Bauer, Schiele, and their contributors from a range of disciplines analyse the nature of common sense and the consequent challenges of incorporating it into artificial intelligence models. They look at different ways we might understand common sense and which

of these ways are simulated within computer algorithms These include sensory integration self evident truths rhetorical common places and mutuality and intentionality of actors within a moral community How far are these possible features within and of machines Approaching from a range of perspectives including Sociology Political Science Media and Culture Psychology and Computer Science the contributors lay out key questions practical challenges and common sense concerns underlying the incorporation of common sense within machine learning algorithms for simulating intelligence socialising robots self driving vehicles personnel selection reading automatic text analysis and text production A valuable resource for students and scholars of Science Technology Society Studies Sociologists Psychologists Media and Culture Studies human computer interaction with an interest in the post human and programmers tackling the contextual questions of machine learning

**The Sower of Question Marks ???** Mark Eyskens, 2022-06-22 This book was born out of a long standing frustration due to the observation that a societal silence prevails on existential questions which we dare not talk about even in our highly interconnected world As if an embarrassment has seized our interlocutors struck by a certain metaphysical prudishness as soon as conversation turned to talking about life and death the meaning of our existence or fundamental values and their divine or human origin Is there life after death and Is there life before death are questions that I have never heard raised at the Parliament bar or in a waiting room of the university faculties This book is the result of a reaction to the

deficit of essential questioning at a time when digital and other forms of media inundate society This writing is not a philosophical essay nor is it a theological treatise a sociological manual a novel a collection of poems The truth is that it is all of these at the same time Hence the reader must browse the pages of this book with caution and prepare to encounter divergent intellectual landscapes planted with many question marks Furthermore since I will thoroughly discuss transcendence and what is hidden behind the visible and in the heart of the homo sapiens I had to appeal to allegories metaphors images and poetry Three allegories emerge most forcefully that of the homo interrogans the blind monk and that of the palimpsest three symbolic stories that try to unravel some signals of the mystery of being The first concerns the discovery made by an expedition of paleontologists in Africa of an anthropoid skeleton that thanks to the arrangement of the bones was buried in prehistoric times in the shape of a large question mark The second allegory is about a blind monk who knows the contents of all the books in the library and is apparently a visionary The third one is the story of the discovery of an old parchment in Jerusalem an enigmatic palimpsest the decoding of which could upset the understanding of our human condition Moreover a certain professor J C Mortal appears who can be considered as the spiritual twin of the author Life is a mystery to be lived and not a problem to be solved the sage Mahatma Gandhi taught us Yet in order to grasp the mystery it is necessary to ask the right questions

**The Technocene** Hermínio Martins, 2018-12-15 Hermínio Martins was one of the key pioneers of the sociology of science and technology He published extensively in Portuguese and was recognized for his academic contributions with an honorary doctorate at Lisbon 2006 and two Portuguese Medals of Honour Following his retirement from the University of Oxford he wrote prolifically in English on a wide range of topics that examined the ethical and societal consequences of the commoditization of the human body and mind These essays are deep philosophical reflections on our contemporary world and draw extensively and eclectically upon a wide range of theoretical influences including continental philosophy history and psychology to name but a few disciplines The Technocene is a selection of some of these insightful essays made available to a global audience for the first time

The Coming Robot Revolution Yoseph Bar-Cohen, David Hanson, 2009-04-20 Making a robot that looks and behaves like a human being has been the subject of many popular science fiction movies and books Although the development of such a robot faces many challenges the making of a virtual human has long been potentially possible With recent advances in various key technologies related to hardware and software the making of humanlike robots is increasingly becoming an engineering reality Development of the required hardware that can perform humanlike functions in a lifelike manner has benefitted greatly from development in such technologies as biologically inspired materials artificial intelligence artificial vision and many others Producing a humanlike robot that makes body and facial expressions communicates verbally using extensive vocabulary and interprets speech with high accuracy is extremely complicated to engineer Advances in voice recognition and speech synthesis are increasingly improving communication capabilities In our daily life we encounter such innovations when we call the

telephone operators of most companies today As robotics technology continues to improve we are approaching the point where on seeing such a robot we will respond with Wow this robot looks unbelievably real just like the reaction to an artificial flower The accelerating pace of advances in related fields suggests that the emergence of humanlike robots that become part of our daily life seems to be imminent These robots are expected to raise ethical concerns and may also raise many complex questions related to their interaction with humans *Elemental Philosophy* David Macauley,2010-09-29 Bachelard called them the hormones of the imagination Hegel observed that through the four elements we have the elevation of sensuous ideas into thought Earth air fire and water are explored as both philosophical ideas and environmental issues associated with their classical and perennial conceptions David Macauley embarks upon a wide ranging discussion of their initial appearance in ancient Greek thought as mythic forces or scientific principles to their recent reemergence within contemporary continental philosophy as a means for understanding landscape and language poetry and place the body and the body politic In so doing he shows the importance of elemental thinking for comprehending and responding to ecological problems In tracing changing views of the four elements through the history of ideas Macauley generates a new vocabulary for and a fresh vision of the environment while engaging the elemental world directly with reflections on their various manifestations **The Cultural Context of Aging** Jay Sokolovsky,2020-06-09 From the laughing clubs of India and robotic granny minders of Japan to the Flexsecurity system of Denmark and the elderscapes of Florida experts in this collection bring readers cutting edge and future focused approaches to our aging population worldwide In this fourth edition of an award winning text on the consequences of global aging a team of expert anthropologists and other social scientists presents the issues and possible solutions as our population over age 60 rises to double that of the year 2000 Chapters describe how the consequences of global aging will influence life in the 21st century in relation to biological limits on the human life span cultural construction of the life cycle generational exchange and kinship makeup of households and community and attitudes toward disability and death This completely revised edition includes 20 new chapters covering China Japan Denmark India West and East Africa Indonesia Mexico Peru indigenous Amazonia rural Italy and the ethnic landscape of the United States A popular feature is an integrated set of web book chapters listed in the contents discussed in chapter introductions and available on the book s web site **Ecofeminist Science Fiction** Douglas A. Vakoch,2021-04-29 *Ecofeminist Science Fiction International Perspectives on Gender Ecology and Literature* provides guidance in navigating some of the most pressing dangers we face today Science fiction helps us face problems that threaten the very existence of humankind by giving us the emotional distance to see our current situation from afar separated in our imaginations through time space or circumstance Extrapolating from contemporary science science fiction allows a critique of modern society imagining more life affirming alternatives In this collection ecocritics from five continents scrutinize science fiction for insights into the fundamental changes we need to make to survive and thrive as a species Contributors examine ecofeminist themes in films

such as Avatar Star Wars and The Stepford Wives as well as television series including Doctor Who and Westworld Other scholars explore an internationally diverse group of both canonical and lesser known science fiction writers including Oreet Ashery Iraj Fazel Bakhsheshi Liu Cixin Louise Erdrich Hanns Heinz Ewers Larissa Lai Ursula K Le Guin Chen Qiufan Mary Doria Russell Larissa Sansour Karen Traviss and Jeanette Winterson Ecofeminist Science Fiction explores the origins of human caused environmental change in the twin oppressions of women and of nature driven by patriarchal power and ideologies Female embodiment is examined through diverse natural and artificial forms and queer ecologies challenge heteronormativity The links between war and environmental destruction are analyzed and the capitalist motivations and means for exploiting nature are critiqued through postcolonial perspectives **Geek Monthly** ,2008-03 **Gender and Parenting in the Worlds of Alien and Blade Runner** Amanda DiGioia,2021-08-11 Gender and Parenting in the Worlds of Alien and Blade Runner is a comparative gendered analysis study of Ridley Scott s contributions to the genre of science fiction and horror cinema showcasing how patriarchal and gendered expectations regarding women usually associated with the past still run rampant The New York Times Magazine ,2004 **Sacred Sites and Sacred Stories Across Cultures** David W. Kim,2021-01-18 This book offers global perspectives from Mediterranean Asian Australian and American cultures on sacred sites and their related stories in regional history Contemporary society witnesses many travelers visiting sacred sites temples mountains castles churches houses throughout the world These visits often involve discovery of new historical facts through the origin stories of the associated tribe region or nation The transmission of oral tradition and myth carries on the significant meaning of those religious sites This volume unveils multi angle perspectives of symbolic and mystical places The contributors describe the religio political experiences of each regional case and analyze the religiosity of local people as a lens through which readers can re examine the concept of iconography syncretism and materialism In addition contributors interpret the growth of new religions as the alternative perspectives of anti traditional religions This new approach offers significant insight into comprehending the practical agony and sorrow of regional people in the context of contemporary history The Palgrave Handbook of the Anthropology of Technology Maja Hojer Bruun,Ayo Wahlberg,Rachel Douglas-Jones,Cathrine Hasse,Klaus Hoeyer,Dorthe Brogård Kristensen,Brit Ross Winthereik,2022-03-23 This Handbook offers an overview of the thriving and diverse field of anthropological studies of technology It features 39 original chapters each reviewing the state of the art of current research and enlivening the field of study through ethnographic analysis of human technology interfaces forms of social organisation technological practices and or systems of belief and meaning in different parts of the world The Handbook is organised around some of the most important characteristics of anthropological studies of technology today the diverse knowledge practices that technologies involve and on which they depend the communities collectives and categories that emerge around technologies anthropology s contribution to proliferating debates on ethics values and morality in relation to technology and infrastructures that highlight how all technologies are embedded

in broader political economies and socio historical processes that shape and often reinforce inequality and discrimination while also generating diversity All chapters share a commitment to human experiences embodiments practices and materialities in the daily lives of those people and institutions involved in the development manufacturing deployment and or use of particular technologies Chapters 11 and 31 are available open access under a Creative Commons Attribution 4 0 International License via link [springer.com](https://www.springer.com)
