Black education in the South was the great social program of the post Civil War era Desperately strapped for operating capital the first freedmen s schools resorted to a bold fundraising experiment Student troupes were sent to the North singing Negro spirituals the sacred songs of slavery in order to generate goodwill and entice financial support The Fisk University Jubilee Singers set this strategy in motion in 1871 in the wake of their success it was adopted by HBCUs throughout the Southland Intrepid student singers introduced the outside world to the Negro spirituals the genuine jewels they brought from their bondage and sang up school buildings in the process Negro spiritual singing was a revelation for the northern public it was their initial exposure to an emergent distinctly American kind of creative energy Male quartets became the standard bearers of this venerable Black music tradition In *Stand the Storm* Spiritual Quartet Singing in the Struggle for Black Education award winning authors Lynn Abbott and Doug Seroff dive into the history of three generations of fundraising quartets from seven representative schools Fisk Hampton Tuskegee Penn Calhoun Utica and Piney Woods They acknowledge the heroic founders of the schools and restore the names of forgotten singers to the historical record They reevaluate the industrial education model that guided these schools Finally they plot the evolution of Negro spiritual singing after Emancipation by scrutinizing early published song collections and comparing them with songbooks and recordings from subsequent eras

Home Front Battles Charles C. Bolton, 2024 Home Front Battles examines the many effects of World War II economic and military mobilization on the Deep South. It also underscores one of the primary home front battles which began with the passage of the Selective Training and Service Act in 1940 and the creation of the Fair Employment Practices Committee in 1941 banning discriminatory military training and employment practices and making it clear that the federal government would be promoting the ideal of nondiscrimination as part of its wartime mobilization efforts. In the Deep South where race relations were already tense, these directives and southern tradition clashed. The Year of Peril Tracy Campbell, 2020-05-01 A fascinating chronicle of how the character of American society revealed itself under the duress of World War II. The Second World War exists in the American historical imagination as a time of unity and optimism. In 1942, however, after a series of defeats in the Pacific and the struggle to establish a beachhead on the European front, America seemed to be on the brink of defeat and was beginning to splinter from within. Exploring this precarious moment, Tracy Campbell paints a portrait of the deep social, economic, and political fault lines that pitted factions of citizens against each other in the post-Pearl Harbor era, even as the nation mobilized government-aided industrial infrastructure blossomed and parents sent their sons off to war. This captivating look at how American society responded to the greatest stress experienced since the Civil War reveals the various ways, both good and bad, that the trauma of 1942 forced Americans to redefine their relationship with democracy in ways that continue to affect us today.

Singing Like Germans Kira Thurman, 2021-10-15 In *Singing Like Germans*, Kira Thurman tells the sweeping story of Black musicians in German-speaking Europe over more than a century. Thurman brings to life the incredible musical interactions and transnational collaborations among people of African descent and white Germans and Austrians. Through this compelling history, she explores how people reinforced or challenged racial identities in the concert hall. Throughout the nineteenth and twentieth centuries, audiences assumed the categories of Blackness and Germanness were mutually exclusive. Yet, on attending a performance of German music by a Black musician, many listeners were surprised to discover that German identity is not a biological marker but something that could be learned, performed, and mastered. While Germans and Austrians located their national identity in music championing composers such as Bach, Beethoven, and Brahms as national heroes, the performance of their works by Black musicians complicated the public's understanding of who had the right to play them. Audiences wavered between seeing these musicians as the rightful heirs of Austro-German musical culture and dangerous outsiders to it. Thurman explores the tension between the supposedly transcendental powers of classical music and the global conversations that developed about who could perform it. An interdisciplinary and transatlantic history, *Singing Like Germans* suggests that listening to music is not a passive experience but an active process where racial and gendered categories are constantly made and unmade.

crime and wildlife to highlight the role of flash in popular culture literature and film Looking at the Stars Carrie Teresa,2019-06-01 As early as 1900 when moving picture and recording technologies began to bolster entertainment based leisure markets journalists catapulted entertainers to godlike status heralding their achievements as paragons of American self determination Not surprisingly mainstream newspapers failed to cover black entertainers whose inherent inferiority precluded them from achieving such high cultural status Yet those same celebrities came alive in the pages of black press publications written by and for members of urban black communities In Looking at the Stars Carrie Teresa explores the meaning of celebrity as expressed by black journalists writing against the backdrop of Jim Crow era segregation Teresa argues that journalists and editors working for these black centered publications rather than simply mimicking the reporting conventions of mainstream journalism instead framed celebrities as collective representations of the race who were then used to symbolize the cultural value of artistic expression influenced by the black diaspora and to promote political activism through entertainment The social conscience that many contemporary entertainers of color exhibit today arguably derives from the way black press journalists once conceptualized the symbolic role of celebrity as a tool in the fight against segregation Based on a discourse analysis of the entertainment content of the period s most widely read black press newspapers Looking at the Stars takes into account both the institutional perspectives and the discursive strategies used in the selection and framing of black celebrities in the context of Jim Crowism Sovereign Acts Katherine A. Zien,2017-09-08 Sovereign Acts explores how artists activists and audiences performed and interpreted sovereignty struggles in the Panama Canal Zone from the Canal Zone s inception in 1903 to its dissolution in 1999 In popular entertainments and patriotic pageants opera concerts and national theatre white U S citizens West Indian laborers and Panamanian artists and activists used performance as a way to assert their right to the Canal Zone and challenge the Zone s sovereignty laying claim to the Zone s physical space and imagined terrain By demonstrating the place of performance in the U S Empire s legal landscape Katherine A Zien transforms our understanding of U S imperialism and its aftermath in the Panama Canal Zone and the larger U S Caribbean world **Luso-Tropicalism and Its Discontents** Warwick Anderson,Ricardo Roque,Ricardo Ventura Santos,2019-04-22 Modern perceptions of race across much of the Global South are indebted to the Brazilian social scientist Gilberto Freyre who in works such as *The Masters and the Slaves* claimed that Portuguese colonialism produced exceptionally benign and tolerant race relations This volume radically reinterprets Freyre s Luso tropicalist arguments and critically engages with the historical complexity of racial concepts and practices in the Portuguese speaking world Encompassing Brazil as well as Portuguese speaking societies in Africa Asia and even Portugal itself it places an interdisciplinary group of scholars in conversation to challenge the conventional understanding of twentieth century racialization proffering new insights into such controversial topics as human plasticity racial amalgamation and the tropes and proxies of whiteness *Singing Down the Barriers* Emery Stephens,Caroline Helton,2023-07-03 Never has there been a

more urgent time to foster cultural humility diversity and community dialogue while addressing systemically exclusionary teaching practices in vocal music *Singing Down the Barriers* offers readers from all ethnic backgrounds a space in which to better understand the historical and cultural barriers to researching programming and performing repertoire by composers from the African diaspora Emery Stephens and Caroline Helton present a pedagogical guide for singers singing teachers students and administrators that will assist not only with programming but also in creating sustainable brave spaces for critical conversations on race equity and American music The book is divided into three parts Part one presents historical context for African American song from the 19th century to the 21st century Part two examines the culture of academic institutions and provides a framework for positive change Part three provides strategies to foster integrated communities that can explore this repertoire with respect and mutual support as well as ways to incorporate Afrocentric music into the canon This book is a seminal resource for higher education community music programs private studios and beyond and will help support DEI initiatives for vocal music programs
