

ROLEX

Factory Service

#### LUBRICATING THE MOVEMENT

To ensure that the movement of your Rolex timepiece will continue to perform accurately, each pivot of its train wheels and balance staff is lubricated with the proper grade of lubricants in order to maintain a minimum level of friction and wear.

#### TIMING CALIBRATIONS

The heart of your Rolex watch movement is its highly sensitive balance wheel. Timekeeping precision is achieved through the meticulous setting of the balance wheel's timing screws. Your Rolex watch is then carefully observed and tested for days to further verify its timing accuracy.
