Handbook of Naval Verbiage and Retired Guy's Re-familiarization Manual Ron Martini, 2005 Submariners are a tight knit group of men bound together by training and experience and with a language all their own That language is perhaps a little vulgar but never intentionally demeaning and a little irreverent but still worldly This work is an attempt to preserve and explain some of these curious guys who so proudly wear a shiny metal pin that looks like a strange pair of fish on their left breast This process of accumulating this new language begins in Boot Camp and is added to with every change of duty station the sailor undergoes It is heard aboard the boats and unknowingly by family members who can't understand terms like head deck and overhead and who think SOS is a distress signal

Russia Abroad Anna Ohanyan, 2018-10-01 While we know a great deal about the benefits of regional integration there is a knowledge gap when it comes to areas with weak dysfunctional or nonexistent regional fabric in political and economic life Further deliberate unregioning applied by actors external as well as internal to a region has also gone unnoticed despite its increasingly sophisticated modern application by Russia in its peripheries This volume helps us understand what Anna Ohanyan calls fractured regions and their consequences for contemporary global security Ohanyan introduces a theory of regional fracture to explain how and why regions come apart consolidate dysfunctional ties within the region and foster weak states Russia Abroad specifically examines how Russia employs regional fracture as a strategy to keep states on its periphery in Eurasia and the Middle East weak and in Russia's orbit It argues that the level of regional maturity in Russia's vast vicinities is an important determinant of Russian foreign policy in the emergent multipolar world order Many of these fractured regions become global security threats because weak states are more likely to be hubs of transnational crime havens for militants or sites of protracted conflict The regional fracture theory is offered as a fresh perspective about the post American world and a way to broaden international relations scholarship on comparative regionalism

The Greek-Turkish Relationship and NATO Dr Fotios Moustakis, 2004-11-23 This publication shows that the Eastern Mediterranean having been transformed from a region of secondary importance during the Cold War to one of greater importance for the western interests in the post Cold War era is in a state of flux Despite sporadic periods of rapprochement tensions between Greece and Turkey still exist Therefore one must question the grounds behind the lack of normal relations that exist between these two NATO members and its effects on

the NATO organisation as a whole Hence this volume has two purposes first to examine Greek and Turkish foreign security and defence policies during and after the post Cold War period and second to investigate why these policies have been formulated *"The" Athenaeum* ,1845 **The Athenæum** ,1845 **Athenaeum** ,1845 *Broken Links, Enduring Ties* Linda Seligmann,2013-10-02 Family making in America is in a state of flux the ways people compose their families is changing including those who choose to adopt *Broken Links Enduring Ties* is a groundbreaking comparative investigation of transnational and interracial adoptions in America Linda Seligmann uncovers the impact of these adoptions over the last twenty years on the ideologies and cultural assumptions that Americans hold about families and how they are constituted Seligmann explores whether or not new kinds of families and communities are emerging as a result of these adoptions providing a compelling narrative on how adoptive families thrive and struggle to create lasting ties Seligmann observed and interviewed numerous adoptive parents and children non adoptive families religious figures teachers and administrators and adoption brokers The book uncovers that adoption once wholly stigmatized is now often embraced either as a romanticized mission of rescue or conversely as simply one among multiple ways to make a family **Sex Trafficking and the Media** Meghan Sobel,2018-02-15 This book explores how sex trafficking has been reported in the media The book is set in the context of reportage of this human rights abuse in two varying political landscapes the United States being a developed democracy and Thailand experiencing continued political turmoil including a May 2014 coup d tat and an accompanying crackdown on free expression by the ruling military junta In doing so the book shows how there are great similarities between the two countries in the way the issue is misrepresented Drawing on content analysis of news coverage in the United States and Thailand as well as interviews with journalists anti trafficking advocates survivors of sex trafficking and consensual sex workers this book illuminates reasons why coverage is framed in the way s that it is how anti trafficking advocates can act as media advocates to push coverage in new directions and how journalistic functions are similar and different in the two countries Drug Trafficking and International Security Paul Rexton Kan,2016-07-18 Global drug trafficking intersects with a vast array of international security issues ranging from war and terrorism to migration and state stability More than just another item on the international security agenda drug trafficking in fact exacerbates threats to national and international security In this light the book argues that global drug trafficking should not be treated as one international security issue among many Rather due to the unique nature of the trade illegal drugs have made key threats to national and international security more complex durable and acute Drug trafficking therefore makes traditional understandings of international security inadequate Each chapter examines how drug trafficking affects a particular security issue such as rogue nations weak and failing states protracted intrastate conflicts terrorism transnational crime public health and cyber security While some texts see drug trafficking as an international threat in itself others place it under the topic of transnational organized crime arguing that the threats emanate from criminal groups This book on the other hand provides a

thorough understanding of how a vast array of threats to international security are exacerbated by drug trafficking *The Lodi Woman's Club Cook Book*, 1886 Criminology Anthony Walsh, Cody Jorgensen, 2024-11-29 In *Criminology The Essentials* authors Anthony Walsh and Cody Jorgensen introduce students to major theoretical perspectives and criminology topics in a concise easy to read format This straightforward overview of the major subject areas in criminology thoroughly covers the most up to date advances in theory and research while challenging students to consider the applications of these theories as well as their policy implications Updates to the Fifth Edition include new topics and developments in criminology such as racial disparities in arrest rates insights from the Big Five personality traits cognitive behavioral therapy gun violence and policy and the opioid epidemic It also offers detailed evaluations of theories to deepen student understanding and foster engaging classroom discussions Port of Last Resort Marcia Reynders Ristaino, 2001 This book examines two large and generally overlooked diaspora communities one Jewish the other Slavic who found refuge in Shanghai during the tumultuous first half of the twentieth century **Eritrea's Gold Rush** Charlotte Touati, 2025-10-02 Leading Horn of Africa expert Charlotte Touati exposes the role played by Canadian gold mining company Nevsun and other global actors in propping up the regime of Isayas Aferwerki one of Africa's most dangerous dictators In so doing Touati shows how global capital networkshelp perpetuate economic and political instability in the Horn of Africa which in turn is fostering violence and volatility throughout other parts of the world Using a narrative framework and a core cast of characters to help guide non specialist readers through her findings Touati explains the enormous significance of how Nevsun partnered with Aferwerki to open the Bisha gold mine and save his regime from bankruptcy As Touati relates when Eritrean refugees later claimed they were conscripted to work in the mines without pay and abused as part of their National Service Nevsun hired lobbyists to defend Eritrea's actions and cast the very notion of human rights as a Western Trojan horse Australian Chinese and Russian actors gradually became involved and philological analysis shows that the propaganda and disinformation campaigns of the infamous Russian Wagner Group ultimately stem from the rhetoric of Afewerki and his lobbyists Ultimately this violently anti Western rhetoric was injected into a pan Africanist discourse to become an ideological and rhetorical toolbox It was used to prevent any intervention on behalf of Eritreans trapped in their own country or Tigrayans genocided in neighboring Ethiopia in the name of sovereignty and also to legitimize new conflicts throughout the Sahel and the rest of Africa's notorious Coup Belt It takes on even wider global dimensions when we consider the ongoing crisis around the Red Sea ports which Eritrea controls and the question of the influence of the Gulf States in the Horn of Africa Human Trafficking and Slavery Reconsidered Vladislava Stoyanova, 2017-03-16 An original analysis of the definition and scope of the right not to be held in slavery servitude and forced labour Blackhatonomics Will Gragido, John Pirc, Nick Selby, Daniel Molina, 2012-12-31 *Blackhatonomics* explains the basic economic truths of the underworld of hacking and why people around the world devote tremendous resources to developing and implementing malware The book provides an economic view of the

Economies of Violence Jennifer Suchland, 2015-07-23 Recent human rights campaigns against sex trafficking have focused on individual victims treating trafficking as a criminal aberration in an otherwise just economic order In Economies of Violence Jennifer Suchland directly critiques these explanations and approaches as they obscure the reality that trafficking is symptomatic of complex economic and social dynamics and the economies of violence that sustain them Examining United Nations proceedings on women's rights issues government and NGO anti trafficking policies and campaigns by feminist activists Suchland contends that trafficking must be understood not solely as a criminal gendered and sexualized phenomenon but as operating within global systems of precarious labor neoliberalism and the transition from socialist to capitalist economies in the former Soviet Union and Eastern Bloc In shifting the focus away from individual victims and by underscoring trafficking's economic and social causes Suchland provides a foundation for building more robust methods for combatting human trafficking
