Education Policy and Realist Social Theory Robert Archer,2018-05-04 In Europe welfare state provision has been subjected to market forces Over the last two decades the framework of economic competitiveness has become the defining aim of education to be achieved by new managerialist techniques and mechanisms This book thoughtfully and persuasively argues against this new vision of education and offers a different more useful potential approach This in depth major study will be of great interest to researchers in the sociology of education education policy social theory organization and management studies and also to professionals concerned about the deleterious impact of current education policy on children s learning and welfare

Machinery Buyers' Guide ,2003 No Shortcuts Max Smeets,2022-06-02 Over the past decade numerous states have declared cyberspace as a new domain of warfare sought to develop a military cyber strategy and establish a cyber command These developments have led to much policy talk and concern about the future of warfare as well as the digital vulnerability of society No Shortcuts provides a level headed view of where we are in the militarization of cyberspace In this book Max Smeets bridges the divide between technology and policy to assess the necessary building blocks for states to develop a military cyber capacity Smeets argues that for many states the barriers to entry into conflict in cyberspace are currently too high Accompanied by a wide range of empirical examples Smeets shows why governments abilities to develop military cyber capabilities might change over time and explains the limits of capability transfer by states and private actors
