Williams,Ronald K. Chen,2023 The New Jersey State Constitution is a throughly revised new edition that provides an extensive historical account and constitutional analysis of the

state's governing charter. In addition to an overview of New Jersey's constitutional history, it provides an in-depth section by section analysis of the entire constitution, detailing the many significant changes that have been made since its initial drafting. This treatment, along with a table of cases, index, and bibliography, is an essential resource for students, scholars, and practitioners of New Jersey's constitution. State constitutions perform different functions and contain different provisions from the more familiar U.S. Constitution. The book first outlines the historical development of New Jersey's state constitution from 1776 to the present and explains the highlights of the process of state constitutional development leading to the current New Jersey constitution. Next, each section of the current constitution is analyzed, including its origins, general intent, and purpose, and important judicial interpretations illustrating the types of situations in which the section can come into play, including references to key academic analysis of each section. Careful explanation is provided with illustrations from cases of the complex and evolving relationship between rights guaranteed by the U.S. Constitution and rights guaranteed by the New Jersey constitution. In many instances, New Jersey's rights can be more protective than those included in the Federal Constitution. Finally, the book provides a thorough bibliographical essay reviewing the evolution of the New Jersey constitution.

The Influence and Predictability of Socioeconomic Factors of the 2018 PARCC Middle School ELA Scores in New Jersey. Dr. Charlene F. Jones, 2021-11-12. *The Influence and Predictability of Socioeconomic Factors of the 2018 PARCC Middle School ELA Scores in New Jersey*. By Dr. Charlene F. Jones. This quantitative research, *The Influence and Predictability of Socioeconomic Factors of the 2018 PARCC Middle School ELA Scores in New Jersey*, examines the predictive power of socioeconomic parental and school district factors on student academic achievement. The combined influence of parent education with a bachelor's degree or higher and free and reduced-price lunch factors demonstrate the highest statistical significance for predictability in this study. All fundamental variables utilized support a greater discussion on how we, as parents and educators, can influence standardized test results and ensure local education policies and recommendations therein are research-based and implemented effectively in diverse communities. Particularly during this new era post-pandemic, we seek successful strategies to combat learning loss, increase educational opportunities, and predict where possible assessment results all in support of the future of public education.

The Performative State. Iza Yue Ding, 2022-09-15. What does the state do when public expectations exceed its governing capacity? *The Performative State* shows how the state can shape public perceptions and defuse crises through the theatrical deployment of language, symbols, and gestures of good governance. Performative governance. Iza Ding unpacks the black box of street-level bureaucracy in China through ethnographic participation in depth interviews and public opinion surveys. She demonstrates in vivid detail how China's environmental bureaucrats deal with intense public scrutiny over pollution when they lack the authority to actually improve the physical environment. They assuage public outrage by appearing responsive, benevolent, and humble. But performative governance is hard work. Environmental bureaucrats paradoxically work themselves to exhaustion even when

they cannot effectively implement environmental policies Instead of achieving performance legitimacy by delivering material improvements the state can shape public opinion through the theatrical performance of goodwill and sincere effort The Performative State also explains when performative governance fails at impressing its audience and when governance becomes less performative and more substantive Ding focuses on Chinese evidence but her theory travels comparisons with Vietnam and the United States show that all states democratic and authoritarian alike engage in performative governance
