

## No School Uniforms Essay

It is debated nowadays on whether teenagers, who go to school, should be wearing a uniform. There are several advantages but also some disadvantages, such as All the students wearing the same uniform, which can take the stress off looking better than other students as they are wearing similar clothing, and also having a uniform can make a person look smart and respectable, but on the other hand, students can feel that their uniforms are too boring and don't show their personality or their style well enough and that for certain schools, uniforms can be expensive, especially if it is a larger family they are being bought for. An advantage of uniforms would be that all the students are wearing similar clothing, so no one will feel as if they don't look good enough or that they have to impress anyone. Students would probably feel this way if it were a non-uniform school and would be under stress trying to buy new clothes every week or month to impress their classmates. So having a uniform is beneficial to certain people as they may not be as well off as others and won't be able to afford new clothes all the time. I think this is a very strong point as I agree that students wouldn't feel pressured to impress their friends with new clothes and that their parents would save a fortune with a uniform as uniforms only have to be renewed every month or so. Another advantage of uniforms would be that they look respectful and appropriate, which can give the impression that the student goes to a good school, and that heshe is quite intelligent. Furthermore, in some schools that don't have a dress code, their pupils look casual, and it doesn't look like they even go to school. In addition to that, when schools have a non-uniform day, it can be more exciting because it is a day where they can show off their nonschool clothes. I strongly agree with this point because students do look more sensible in a uniform rather than casual attire, and I also agree that, when schools do have a non-uniform day, they want to look nice and show off their designer clothes, whereas, at a school which has no dress code, they have probably already worn their designer clothes to school, so they would resort to buying even more clothes to impress, which will cost a fortune. This brings me to my next and closing point on the advantages of having a uniform, The cost. Some private schools' uniforms may cost considerably more but would you rather pay for a full uniform at a dear price, or buy new clothes every week or two for around the same price range, or more? Most public school uniforms don't cost an incredible amount and only have to be renewed after a month or two. I do agree with this point as it is true about having to buy new clothes all the time would cost an awful lot, and that you could buy a full uniform for around the same price. Uniforms may be good in some ways, but some students strongly dislike them for multiple reasons. One disadvantage of uniforms would be the image. The first thought that comes into a student's head when they see a uniform is that they look boring, and the reason for this is understandable as uniforms usually consist of one, two, or maybe even three colors, but these colors are usually neutral, boring colors that aren't very eye-catching. But you never really see a uniform that has colors like bright yellow or even multiple colors that would definitely make you stand out from the crowd. I do agree with this point very much as uniforms can be extremely dull and boring looking, and wearing a uniform that has colors such as brown or black would probably make you feel quite
