educators and academicians      *Action Research* Craig A. Mertler, 2019-06-26 Introduces practicing educators to the process of conducting classroom based action research with a focus on research methods and procedures that educators can use with their everyday instructional practices classroom activities and school procedures      **Making the Most of Your Research Journal** Nicole Brown, 2021-10-19 Providing practical guidance based on real life examples this book shows researchers different forms and ways of keeping a research journal and how to get the most out of journaling Appealing to postgraduate students new and experienced researchers the book provides a theoretical grounding and information about knowledge and sensory systems and reflexivity presents a practical exploration of what a journal looks like and when and how to record entries includes helpful end of chapter exercises and online resources Providing valuable food for thought and examples to experiment with the book highlights the different forms of research journals and entries so that readers can find what works for them Giving researchers licence to do things differently the book encourages and enables readers to develop their own sense of researcher identity and voice      **Journals as Frameworks for Professional Learning Communities** Mary E. Dietz, 2007-12-08 This guide illustrates a four step structured journaling process of purpose focus process and outcome and provides case studies sample journals and a CD ROM with implementation tools      *Developing Reflective TESOL Practitioners Through Teacher Education* Andrzej Cirocki, Mark Wyatt, Xuesong (Andy) Gao, 2024-06-26 This textbook provides insights from Asian contexts into how reflective practice is nurtured on Teaching English to Speakers of Other Languages TESOL and English Language Teaching ELT teacher education programmes There is increasing recognition worldwide that given the centrality of reflective practice to teachers ongoing professional development supporting teachers to become reflective practitioners should be integral to teacher education programmes Consequently tertiary level courses in areas such as TESOL and ELT tend to promote reflective practice supported by theoretical input from the burgeoning literature on reflection much of which is produced in the West Relatively under represented in the literature are global perspectives on reflective practice there are consequently relatively few accounts as to how reflective practice is embedded in teacher education programmes in different parts of the world including Asia Hence this book addresses a gap Contributing authors from fourteen countries provide insights into the ways in which teachers are helped to grow as reflective practitioners on their teacher education programmes in their unique contexts This textbook showcases how reflective teaching practices are developed supported by frameworks for critical reflection and in interaction with local educational policies These distinctive accounts aid readers in reflecting on the ways in which reflective practice is supported in their own teacher education contexts and in considering ways of enhancing the reflective dimension of their programmes This textbook showcases innovative reflective activities and can be used as a principal text or as supplemental reading on a range of TESOL and ELT teacher education courses      **Qualitative Data Collection Tools** Felice D. Billups, 2019-12-20 Qualitative Data Collection Tools is a new and unique supplementary text that will guide students and new researchers to design develop pilot

and employ qualitative tools in order to collect qualitative data. An often omitted subject in general qualitative textbooks, qualitative tools form the backbone of the data collection process. Students and new researchers are frequently left to create their own qualitative tools from scratch, an unnecessary hurdle in the qualitative research design process. Author Felice D. Billups has used her experience as a qualitative researcher and in teaching and advising students about qualitative research to develop the templates in this book as a starting point for readers conducting original qualitative research. The author briefly describes each method of data collection and offers readers suggestions for using and adapting the qualitative instrument templates within the text. Templates of interview protocols, focus group moderator guides, content analysis tools, document analysis tools, reflective questionnaires, diary and journal logs, and observational rubrics give the reader either a cut and paste solution for their own research or a starting point to design their own personalized qualitative tools. The first three chapters illuminate the qualitative data collection process and the role each type of qualitative tool plays in that process. The next six chapters provide detailed guides and numerous templates for each qualitative data collection method, covering interviews, focus groups, conversation and discourse analysis, observations, document analysis, field notes, journaling, and other reflective practices. A final chapter pulls together the multifaceted nature of qualitative research design and connects each tool back to the methodology to ensure trustworthiness and rigor in the data collection and instrument development process. Exemplars populate the appendices, offering readers concrete inspiration for ways to use and adapt the tools provided. If you have ever puzzled over how to best design qualitative tools in order to guide and structure your qualitative data collection, or if you are embarking on your first qualitative study, *Qualitative Data Collection Tools* will give you a practical starting point to help make your qualitative data collection process easier and more organized.
