choosing a particular assessment approach are discussed      *Occupational Therapy and Mental Health* Jennifer Creek, Lesley Lougher, 2011-11-29 This book is a comprehensive textbook for occupational therapy students and occupational therapists working in the field of mental health. It presents different theories and approaches, outlines the occupational therapy process, discusses the context of practice and describes a wide range of techniques used by occupational therapists. These include physical activity, cognitive approaches, group work, creative activities, play and life skills. The book covers all areas of practice in the field, including mental health promotion, acute psychiatry, community work, severe and enduring mental illness, working with older people, child and adolescent mental health, forensic occupational therapy, substance misuse and working with people on the margins of society. The theory chapters are written by occupational therapists who are recognised experts in their fields, and the applied chapters are written by practitioners. An innovation in this edition is the inclusion of commentaries by service users on some of the chapters. This fourth edition has been extensively revised and updated. The new structure reflects changes in service delivery and includes sections on philosophy and theory, base the occupational therapy process, ensuring quality, the context of occupational therapy, occupations, client groups. Important new areas that are covered include mental health promotion, evidence-based practice, community development and continuing professional development. Addresses the needs of the undergraduate course, covers all the student needs for this subject area in one volume. Links between theory and practice are reinforced throughout. Written by a team of experienced OT teachers and practitioners. Comprehensive, covers theory, skills and applications as well as management. The clear structure with the division of chapters into six distinct sections makes it easy to learn and revise from, as well as easy to refer to for quick reference in the clinical situation. Provides key reading and reference lists to encourage and facilitate more in-depth study on any aspect. It is written in a style that is easy to read and understand, yet there is enough depth to take students through to their final year of education. Chapters on the application of occupational therapy are written by practising clinicians, so they are up to date and realistic. For qualified occupational therapists, the book includes a review of current theories and approaches to practice with references so that they can follow up topics of particular interest. Suitable for BSc and BSc Hons occupational therapy courses.

**Housing Choices and Well-Being of Older Adults** Leon A. Pastalan, Benjamin Schwarz, 2013-10-08 Make housing for the elderly comfortable, efficient, and appropriate to their special needs. Today, people are living longer lives than ever before, and elderly people need to live in settings that reflect their individual capabilities. They need safe and appropriate homes, appliances, and furnishings that they will not lose the ability to use and enjoy in the years of decline. *Housing Choices and Well-Being of Older Adults: Proper Fit* addresses the challenge of matching the attributes of residential settings for older adults with the competence of the people who live in them. This book views housing for the elderly as a special case in terms of the person-environment paradigm. It highlights the recurring themes that give housing for the elderly a measure of order and predictability. Care providers, consultants for retirement communities, researchers in the fields of aging and environment, or gerontology, university libraries, and members of housing associations for the elderly will benefit from the timely and vital information in this book. Easy to understand charts and tables make the information even more accessible. *Housing Choices and Well-Being of Older Adults* discusses the state of theory development in environmental gerontology, housing needs of the elderly, quality issues in this type of setting design, and development issues: kitchen, bathroom, and bedroom applications for elderly people in various states of health, home safety issues, and much more, and the issues surrounding continued aging and its implications for supportive environmental health and psychosocial services, the economic and financial concerns of aging adults, housing management, and community issues. Use what you'll find in *Housing Choices and Well-Being of Older Adults* to ensure that the elderly people in your life are comfortable in an environment that is safe and appropriate.

Professional Care for the Elderly Mentally Ill Liz Matthew, 2013-11-11 Services to older people with mental health problems have gone through radical change in recent years Legislation has had a profound effect by dictating how care to older people is delivered both within hospital and within the community The recent government agenda emphasizes cost effectiveness value for money and accountability This too is an important driving force in re-evaluating the service although not everyone would agree with many of the proposed strategies and there are clearly different views as to the appropriateness of many of the services One thing is certain however the move towards interdisciplinary working is here to stay Not all change has been led by legislation and many innovations have been founded in the day to day practices in the care of older people with mental health problems A service of course does not become integrated merely by imposing joint working on a number of professionally based disciplines and in many ways this may not be desirable At its worst it produces duplication where people from different backgrounds are all doing the same job This is not the intention of joint working instead it should attempt to improve the quality of service by a rich mix of skills and experience from a number of related disciplines
