Forensic Face Matching Markus Bindemann, 2021-01-07 In everyday life we identify faces regularly and seemingly with great ease One might assume this to be a straightforward and highly accurate task However we are poor at identifying the faces of unfamiliar people who we have never met before despite the fact that many important everyday tasks depend on this Forensic face matching requires the comparison of two face photographs of a person who is not known to the observer This seemingly simple task is critical for a wide range of security tasks such as person identification at airports and borders passport issuance and renewal and criminal identification in police investigations Despite its ubiquity face matching is highly prone to error even under conditions that are designed to maximally facilitate this task For this reason face matching has been studied extensively in Psychology with the bulk of the research conducted since 2010 Forensic face Matching provides readers with a wide ranging detailed and critical overview of facial comparison and face matching providing insights into its application efficacy and limitations in occupational settings and of current scientific knowledge of this task **The**

Drew A. Thompson, 2021-03-22 Photographers and their images were critical to the making of Mozambique first as a colony of Portugal and then as independent nation at war with apartheid in South Africa When the Mozambique Liberation Front came to power it invested substantial human and financial resources in institutional structures involving photography and used them to insert the nation into global debates over photography's use The materiality of the photographs created had effects that neither the colonial nor postcolonial state could have imagined Filtering Histories The Photographic Bureaucracy

in Mozambique 1960 to Recent Times tells a history of photography alongside state formation to understand the process of decolonization and state development after colonial rule At the center of analysis are an array of photographic and illustrated materials from Mozambique South Africa Portugal and Italy Thompson recreates through oral histories and archival research the procedures and regulations that engulfed the practice and circulation of photography If photographers and media bureaucracy were proactive in placing images of Mozambique in international news Mozambicans were agents of self representation especially when it came to appearing or disappearing before the camera lens Drawing attention to the multiple images that one published photograph may conceal Filtering Histories introduces the popular and material formations of portraiture and photojournalism that informed photography s production circulation and archiving in a place like Mozambique The book reveals how the use of photography by the colonial state and the liberation movement overlapped and the role that photography played in the transition of power from colonialism to independence     Instruments of Public Law Irena Lipowicz, Grażyna Szpor, Aleksandra Syrt, 2022-11-28 The Covid 19 pandemic has revealed the need to verify the existing principles of functioning of public authorities in relation to various decision making processes both at the conceptual level and at law implementation The action of the legislator and public administration towards the society and the economy is conducted using peculiar instruments to control the public administration system These instruments are likely to be of a public or private law nature This book takes a comparative approach to examine the issues related to digital transformation in the times of a pandemic regarding the use of public law instruments in Poland and the wider European context In particular the research aims to identify what stage the development of digital solutions in the state s organization and its authorities has reached including the organization of public administration what the pandemic has changed Exploring the concepts of digital transformation pandemic and public law instruments it provides an analysis of European and national public law instruments using digital solutions security and cybersecurity during a pandemic and concrete issues such as public administration health protection and social security economic activity and the system of public finances and education during the pandemic is performed Establishing whether particular solutions are durable and to what extent they create a certain standard of response to a threat it makes recommendations for determining which of the existing solutions is useful for the functioning of the state and its organs and facilitates the performance of their tasks     *Paper Citizens* Kamal Sadiq, 2008-12-02 In this groundbreaking work Kamal Sadiq reveals that most of the world s illegal immigrants are not migrating directly to the US but to countries in the vast developing world where they are able to obtain citizenship papers fairly easily Sadiq introduces documentary citizenship to explain how paperwork often falsely obtained confers citizenship on illegal immigrants Across the globe there are literally tens of millions of such illegal immigrants who have assumed the guise of citizens Who then is really a citizen And what does citizenship mean for most of the world s peoples Rendered in vivid detail Paper Citizens not only shows how illegal immigrants acquire false papers but also sheds light on the consequences
