Back-dated transactions will automatically form part of the next VAT period.

Gone are the days where you need to select and convert one company at a time. You can now convert multiple sets of data at once. This feature allows you to select the companies you wish to convert and it converts all of them into Sage Pastel Accounting Version 12.

Duplicate reference numbers on customer documents

Have you ever created an invoice for your customer and used the same reference number for that customer? With Sage Pastel Accounting Version 12 you will now be warned when using the same reference number for the same customer. A little additional feature, but a big step towards helping you avoid processing duplicate orders.
