

Personal Philosophy on Advanced Practice Nursing and Healthcare

Introduction

Caring, which is a mainstay characteristic of nursing practice, has been christened as a complex process that is grounded on professional and ethical contexts. While examining the nursing ethos that safeguard the right of patients to human dignity, Judge-Ellis and Wilson (2017) identified caring as a primary moral obligation of the ethical frameworks underlying these ethos. I chose to become an advanced practice nurse because my demeanor and my disposition are adequately suited for providing this care.

Nursing philosophy is an integral element that helps in the identification of the approach that a nursing practitioner adopts towards delivering his or her professional obligations (Marchuk, 2014). The purpose of this paper is to outline my personal philosophy on advanced practice nursing and healthcare with respect to my future role as an advanced practice nurse. In this paper, my personal philosophy concepts that are specific to the nursing metaparadigms are established from published philosophies. Through evidence-based justification of theory, this paper explains how Peplau's Theory of Interpersonal Relations relates to my future practice nursing role and my personal philosophy. To provide ethical and compassionate care to the patients in a healing environment, there needs to be reciprocity between the nurses and the patients, as this is the bedrock of patient-centered treatment care.

Advanced Practice Nursing Philosophy

With the implementation of the Patient Protection and Affordable Care Act of 2010, more emphasis has been dedicated towards identifying the roles of healthcare professionals in guaranteeing the safety and safeguarding the rights of the patients (American Nurses Association, 2018).

Post-structuralism, and Foucault Olga Petrovskaya, 2022-09-30 Nursing Theory Postmodernism Post structuralism and Foucault critiques mainstream American nursing theory and its use of post structural theory comparing and contrasting how postmodern and post structural ideas have been used fruitfully in nursing research and theorizing elsewhere In the late 1980s references to post structuralism and Michel Foucault started to appear in nursing journals Since then hundreds of nursing publications have cited postmodernism and key post structural ideas such as power knowledge discourse and de centring the human subject In Nursing Theory Postmodernism Post structuralism and Foucault Olga Petrovskaya argues that the application of these ideas is markedly different in American nursing theory scholarship compared to nursing theoretical scholarship generated outside the canon of unique nursing theory Analysing relevant literature from the late 1980s through 2010s she demonstrates this difference arguing that American nursing theory calcified into a matrix of dogmas built on logical positivism wary of borrowed theory and loyal to a unique nursing science Post structural ideas that fit the matrix such as criticism of medicine are sanctioned whereas ideas sceptical of humanistic agendas including those that challenge American nursing theory are rendered meaningless In contrast other nurse scholars from Britain Australia Canada and what the author calls the American enclave group engaged with postmodern and post structural perspectives to enrich their research and invite readers to rethink nursing practice The book showcases examples of their intelligent creative theorizing Arguing that American nursing theory enervated nursing theorizing Petrovskaya calls for opening this matrix to theoretical and methodological creativity less rigid categories of scholarship and healthy self examination Making the case that post structural ideas are vital for nurses ability to critically reflect on their discipline and profession this is a necessary read for all those interested in nursing theory philosophy and praxis Chapter 1 of this book is available for free in PDF format as Open Access from the individual product page at www.routledge.com It has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license **2024-25 Staff Nurse Solved Papers** YCT Expert Team , 2024 25 Staff Nurse Solved Papers **Self- Care Theory in Nursing** Dorothea Elizabeth Orem, Susan G.
