The Material Life of Roman Slaves Sandra R. Joshel, Lauren Hackworth Petersen, 2015-10-01 The Material Life of Roman Slaves is a major contribution to scholarly debates on the archaeology of Roman slavery Rather than regarding slaves as irretrievable in archaeological remains the book takes the archaeological record as a key form of evidence for reconstructing slaves lives and experiences Interweaving literature law and material evidence the book searches for ways to see slaves in the various contexts to make them visible where evidence tells us they were in fact present Part of this project involves understanding how slaves seem irretrievable in the archaeological record and how they are often actively if unwittingly left out of guidebooks and scholarly literature Individual chapters explore the dichotomy between visibility and invisibility and between appearance and disappearance in four physical and social locations urban houses city streets and neighborhoods workshops and villas

**Moving Romans** Laurens E. Tacoma, 2016-05-26 While the importance of migration in contemporary society is universally acknowledged historical analyses of migration put contemporary issues into perspective Migration is a phenomenon of all times but it can take many different forms The Roman case is of real interest as it presents a situation in which the volume of migration was high and the migrants in question formed a mixture of voluntary migrants

slaves and soldiers Moving Romans offers an analysis of Roman migration by applying general insights models and theories from the field of migration history It provides a coherent framework for the study of Roman migration on the basis of a detailed study of migration to the city of Rome in the first two centuries A D Advocating an approach in which voluntary migration is studied together with the forced migration of slaves and the state organised migration of soldiers it discusses the nature of institutional responses to migration arguing that state controls focused mainly on status preservation rather than on the movement of people It demonstrates that Roman family structure strongly favoured the migration of young unmarried males Tacoma argues that in the case of Rome two different types of the so called urban graveyard theory which predicts that cities absorbed large streams of migrants apply simultaneously He shows that the labour market which migrants entered was relatively open to outsiders yet also rather crowded and that although ethnic community formation could occur it was hardly the dominant mode by which migrants found their way into Rome because social and economic ties often overrode ethnic ones The book shows that migration impinges on social relations on the Roman family on demography on labour relations and on cultural interaction and thus deserves to be placed high on the research agenda of ancient historians Photo Krien Clevis from the series Echoes of Eternity Krien Clevis is an artist researcher PhD who is working on an ongoing photo project part of the multi disciplinary Dutch research project Mapping the Via Appia Clevis contribution to the project is devoted to this unique historical avenue of memories which over the centuries has been subject to constant change She studies the different perspectives on this street ranging from its protection to its opening up See also [www.krienclevis.com](http://www.krienclevis.com)

**The Roman Family in Italy** Beryl Rawson,Paul Richard Carey Weaver,1999 The family continues to be seen as a central institution in Roman as well as modern Western society The Roman family is often used as a

stereotype sometimes of severity sometimes of decadence with its decline often cited as a cause of wider decline and fall Definitions and concepts continue to be modified and nuanced however as the availability of new evidence and new methodologies make possible a much less simplistic picture In this volume the study of family draws on a wide range of disciplines to develop the intertwined themes of status sentiment and space For example on status there are contributions about Junian Latins and a survey of senators monuments while sentiment is represented by a gloomy but convincing picture of old age and a paper on the sentimental ideal which argues that conflict as well as concord is a feature of family life Space is represented among others by the contribution on who commemorates whom in Roman Italy pointing up the regional variations in custom and the difficulties in tracing complete families The final contributions focus on the house how people lived in the Roman house the use of rooms and the artefacts that might indicate this use The book makes use of many types of evidence from the legal and literary to the iconographical and archaeological Visual and material evidence play an important role in reconstructing real lives in considerable colour and variety The book moves beyond the city of Rome to the rest of Roman Italy and even into the provinces just as Roman culture moved outwards and mingled with other cultures Chronologically too there are new directions towards the later Empire and Christianity So although the contributors do not abandon any of the territory already gained in Rome nor literary and epigraphical sources nor the late Republic or early Empire there is an exciting sense of new discovery
