reader can link the best of the critical past with the present critical scene **True Lies and Short Takes** Eugene L. Stelzig, 2022-10-12 This gathering of autobiographical essays focuses on different experiences and periods of the author's life and hybrid identity: a childhood spent in Austria, teenage years in an American school and then a lycée in France, coming to the U.S. as a young adult and attending college, studying in England for two years and then settling permanently in the U.S. into an academic career. The word "essay" in the title is meant in its original or French sense as an attempt or trial. The twenty-four items in this gathering are a kaleidoscopic collection of such attempts at different modes of self-reflexivity. They are arranged not so much in the chronological order of their composition as by way of loosely assembled thematic clusters. *True Lies* suggests that by transforming lived experiences into language by way of memory, imagination and reflection, and often years and decades later, we inevitably alter them as we write them down. But we also re-experience them and in so doing shift them into another register. These recollections cover a wide range of experiences: Stelzig's early years, his absurd encounter with a barber in Salzburg, his mysterious Buddha experience in Hong Kong, his travel misadventure in Spain, his career as an aspiring poet, his commitment to teaching Shakespeare's plays, his love of dogs and of tennis, and the death of a nineteen-year-old Austrian au-pair girl. *True Lies* is divided into three parts. *Austrian Roots* addresses Stelzig's early years, including his relationship with his Austrian parents. *Adult Branchings* focuses on his American adult life and identity. The final section *Falling Leaves* is for the most part a set of reflections on the later stages of life and the sense of mortality and of time running out, the challenge of being in time and the question of what remains.

Using linguistic ethnography, it investigates how students in a linguistically diverse class, including those who speak less commonly taught languages, deal with learning tasks and the social life of the class when using these languages alongside English as a lingua franca. It discusses implications for teachers from balancing student needs in lesson planning and instruction to classroom management where the language use of one individual or group can create challenges of understanding, participation or deficit identity positionings for another. The book argues that students must not only be allowed to flex their whole language repertoires to learn and communicate but also be aware of how to build bridges across differences in individual repertoires. It offers suggestions for teachers to consider within their own contexts, highlighting the need for teacher autonomy to cultivate the classroom community's critical language awareness and create conducive environments for learning. This book will appeal to postgraduate students, researchers and academics working in the fields of sociolinguistics and linguistic ethnography, as well as pre-service and in-service teachers in linguistically diverse
