## **Understanding Extreme Sports: A**

**Psychological Perspective** Eric Brymer, Francesco Feletti, Erik Monasterio, Robert D. Schweitzer, 2020-03-30 Extreme sports those activities that lie on the outermost edges of independent adventurous leisure activities where a mismanaged mistake or accident would most likely result in death have developed into a significant worldwide phenomenon Brymer Patterson 2002 and Generation Z turn to extreme sports because they are popular and linked to escapism Giannoulakis Pursglove 2017 Arguably extreme sports now support a multi billion dollar industry and the momentum seems to be intensifying Traditional explanations for why extreme sports have become so popular are varied For some the popularity is explained as the desire to rebel against a society that is becoming too risk averse for others it is about the spectacle and the merchandise that is associated with organised activities and athletes For others it is just that there are a lot of people attracted by risk and danger or just want to show off For others still it is about the desire to belong to sub cultures and the glamour that goes with extreme sports Some seek mastery in their chosen activity and in situations of significant challenges This confusion is unfortunate as despite their popularity there is still a negative perception about extreme sports participation There is a pressing need for clarity The dominant research perspective has focused on positivist theory driven perspectives that attempt to match extreme sports against predetermined characteristics For the most part empirical research has conformed to predetermined societal perspectives Other ways of knowing might reveal more nuanced perspectives of the human dimension of extreme sport participation This special edition brings together cutting edge research and thought examining psychology

and extreme sports with particular attention paid to the examination of motivations for initial participation continued participation effective performance and outcomes from participation References Brymer E Schweitzer R 2017a Phenomenology and the extreme sports experience NY Routledge Brymer E Schweitzer R D 2017b Evoking the Ineffable The phenomenology of extreme sports Psychology of Consciousness Theory Research and Practice 4 1 63 74 Giannoulakis C Pursglove L K 2017 Evolution of the Action Sport Setting In S E Klein Ed Defining Sport Conceptions and Borderlines Lexington Books London 128 146 Patterson I 2002 Baby Boomers and Adventure Tourism The Importance of Marketing the Leisure Experience World Leisure Journal 44 2 4 10 DOI 10 1080 04419057 2002 9674265
