Waste Works Brenda Chalfin, 2023-03-06 In *Waste Works* Brenda Chalfin examines Ghana's planned city of Tema theorizing about the formative role of waste infrastructure in urban politics and public life Chalfin argues that at Tema's midcentury founding a prime objective of governing authorities was to cultivate self contained citizens by means of tightly orchestrated domestic infrastructure and centralized control of bodily excrement to both develop and depoliticize the new nation Comparing infrastructural innovations across the city Chalfin excavates how Tema residents pursue novel approaches to urban waste and sanitation built on the ruins of the inherited order profoundly altering the urban public sphere Once decreed a private matter to be guaranteed by state authorities excrement becomes a public issue collectively managed by private persons Pushing self care into public space and extending domestic responsibility for public well being and bodily outputs popularly devised waste infrastructures are a decisive arena to make claims build coalitions and cultivate status Confounding high

modernist ideals excremental infrastructures unlock bodily waste s diverse political potentials The United Nations world water development report, 2017 WWAP, UNESCO, 2017-03-15 The United Nations World Water Assessment Programme WWAP is hosted and led by UNESCO WWAP brings together the work of 31 UN Water Members and 38 Partners to publish The United Nations World Water Development Report WWDR series The annual World Water Development Reports focus on strategic water issues UN Water Members and Partners all experts in their respective fields contribute the latest findings on a specific theme The 2017 edition of the World Water Development Report focuses on Wastewater and seeks to inform decision makers inside and outside the water community about the importance of managing wastewater as an undervalued and sustainable source of water energy nutrients and other recoverable by products rather than something to be disposed of or a nuisance to be ignored The report s title Wastewater The Untapped Resource reflects the critical role that wastewater is poised to play in the context of a circular economy whereby economic development is balanced with the protection of natural resources and environmental sustainability and where a cleaner and more sustainable economy has a positive effect on the water quality Improved wastewater management is not only critical to achieving the Sustainable Development Goal on clean water and sanitation SDG 6 but also to other goals of the 2030 Agenda for Sustainable Development **Environment, Health and Sustainable Development** Emma Hutchinson, Sari Kovats, 2017-02-16 Longstanding evidence of the links between the environment development and human health has led to a recognition of the need for public health policy to address sustainable development in low middle and high income countries One of the great challenges for public health practitioners is to understand and try to modify the relationship between the environment and health This book examines the underlying concepts and history of environmental public health including the key factors Air pollution Chemical contamination Climate hazards Housing and the built environment This book has been fully revised to discuss recent international environmental conventions and legislation in the fast moving world of global environmental health UK and global issues are covered such as urbanization and the impact of transport on air pollution housing and indoor air quality and the impact of environmental change on high and low income countries Understanding Public Health is an innovative series published by Open University Press in collaboration with the London School of Hygiene Tropical Medicine where it is used as a key learning resource for postgraduate programmes It provides self directed learning covering the major issues in public health affecting low middle and high income countries The fully revised second edition presents the wide range of environmental issues that are relevant to public health with academic rigour but loses none of the ease of use for self directed study of the first edition with several new activities and feedback within each chapter Dr Sotiris Vardoulakis Head of Environmental Change Department Public Health England UK The broadening of the traditional scope of environmental health is clearly presented in this book The 19th century view of this branch of public health still prevalent among public health practitioners has finally been updated with a change to a global perspective Energy choices climate change ecosystem

services waste are now appropriately included as environmental factors affecting health and through this lens traditional topics of air water and soil can be re interpreted This overview provides a solid foundation for all public health practitioners intending to include environmental health as part of a renewed mainstream public health capable of engaging with the full range of environmental challenges to sustainable health and wellbeing in contemporary societies Giovanni Leonardi Head of the Environmental Epidemiology Group Public Health England UK

Fresh Kills Martin V. Melosi, 2020-01-28 *Fresh Kills* a monumental 2 200 acre site on Staten Island was once the world s largest landfill From 1948 to 2001 it was the main receptacle for New York City s refuse After the 9 11 attacks it reopened briefly to receive human remains and rubble from the destroyed Twin Towers turning a notorious disposal site into a cemetery Today a mammoth reclamation project is transforming the landfill site constructing an expansive park three times the size of Central Park Martin V Melosi provides a comprehensive chronicle of *Fresh Kills* that offers new insights into the growth and development of New York City and the relationship among consumption waste and disposal He traces the metamorphoses of the landscape following it from salt marsh to landfill to cemetery and looks ahead to the future park By centering the problem of solid waste disposal Melosi highlights the unwanted consequences of mass consumption He presents the *Fresh Kills* space as an embodiment of massive waste linking consumption to the continuing presence of its discards Melosi also uses the landfill as a lens for understanding Staten Island s history and its relationship with greater New York City The first book on the history of the iconic landfill *Fresh Kills* unites environmental political and cultural history to offer a reflection on material culture consumer practices and perceptions of value and worthlessness

Introduction to Global Health Kathryn H. Jacobsen, 2022-10-10 *Introduction to Global Health* is a comprehensive look at today s most critical global health concerns and the actions that people around the world are taking to solve public health problems and to promote health and wellbeing The Fourth Edition of *Introduction to Global Health* maintains the clarity and ease of use of the prior edition while featuring a greater emphasis on the specific interventions that are being implemented to promote longer healthier lives worldwide and prevent disease disability and early death in countries of all income levels Every chapter balances material about pandemics climate change and other emerging threats to global public health with evidence of how global health interventions are enabling progress toward achieving health equity

The Human Face of Water Security David Devlaeminck, Zafar Adeel, Robert Sandford, 2017-03-09 This volume collects essays from academics and practitioners from a diversity of areas and perspectives in order to discuss water security at various levels and to illuminate the central idea of water security its focus on the individual Beginning with the big picture this book aims to illustrate the depth of the water security crisis and its interconnections with other aspects of societal development It particularly draws a connection to the 2030 Agenda for Sustainable Development and discusses that challenges faced in meeting the 17 sustainability development goals SDG by the year 2030 Moving from international to domestic and community perspectives this book provides a unique analysis of issues and solutions to the water issues we face

today in light of the ever looming global changes brought on by climate change Over the past few decades the recognition of our common need for water has increased as policymakers have sought to place more focus on the individual within policy After the recognition of water and sanitation as a fundamental human right by the United Nations General Assembly in 2010 there is increasing recognition of the individual as the building block for the struggle for water security This reality also intersects with adverse impacts of global climate change and the book responds to the broader question will clean and safe water be available where we need it and when we need it in the future *Africa in the Post-2015 Development Agenda* Leo Charles Zulu,Cristina D'Alessandro,2018-04-19 This book offers a multifaceted examination of Africa s development into the post 2015 global agenda from a geographical perspective As a diversified and highly applied discipline geography has a lot to offer to global debates nuanced analysis of problems on and the search for innovative solutions to advance the African development agenda beyond 2015 The end of the Millennium Development Goals MDGs era and the launch of the Sustainable Development Goals SDGs in September 2015 mark an important turning point for Africa and an opportune time to examine new challenges and opportunities that it faces The regional disparities in MDG progress affirm an important geographic tenet that the unique yet internally differentiated socio cultural economic political ecological biophysical and historical context give Africa distinctive challenges and opportunities that demand particular approaches to development This edited book presents innovative contributions examining Africa s development performance in diverse sectors during the MDG era as a basis for understanding prospects for its development in the SDG era and beyond It offers new and innovative study perspectives and methodological approaches on urban transformation development financing food security climate change gender equality health and regional integration among other topics and useful insights for scholars students and development practitioners This book was originally published as a special issue of African Geographical Review the journal of the American Association of Geographers Africa Specialty Group to mark the transition from MDGs to SDGs **Oxford**

Textbook of Global Public Health Roger Detels,Quarraisha Abdool Karim,Fran Baum,Liming Li,Alastair H. Leyland,2022 Invaluable for all practitioners trainees and students of public health and epidemiology the Oxford Textbook of Global Public Health covers the scope methods and practice of public health and has been comprehensively updated for its seventh edition

Community Management of Rural Water Supply Paul Hutchings,Richard Franceys,Stef Smits,Snehalatha Mekala,2017-07-14 The supply of reliable and safe water is a key challenge for developing countries particularly India Community management has long been the declared model for rural water supply and is recognised to be critical for its implementation and success Based on 20 detailed successful case studies from across India this book outlines future rural water supply approaches for all lower income countries as they start to follow India on the economic growth and subsequent service levels transition The case studies cover state level wealth varying from US 2 600 to US 10 000 GDP per person and a mix of gravity flow single village and multi village groundwater and surface water schemes The research reported covers 17

states and surveys of 2 400 households Together they provide a spread of cases directly relevant to policy makers in lower income economies planning to upgrade the quality and sustainability of rural water supply to meet the Sustainable Development Goals particularly in the context of economic growth Governance for Urban Services Shabbir Cheema,2020-03-02 This book examines three vital issues in urbanization and democratization the institutional structures and processes of urban local governance to improve access to urban services their outcomes in relation to low income groups access to services citizen participation in local governance accountability of local leaders and officials and transparency in local governance and the factors that influence access to urban services especially for the poor and marginalized groups Further it describes decentralization policies views of the residents of slums on the effectiveness of government programs and innovations in inclusive local governance and access to urban services **Audible Infrastructures** Kyle Devine,Alexandrine Boudreault-Fournier,2021-01-11 Audible Infrastructures reveals the material environmental and economic conditions that underlie the production and consumption of music In showing how central natural resources power grids and transportation are to music this book boldly reshapes how we understand musical cultures and their place in society **Natural and Constructed Wetlands** Jan Vymazal,2016-08-26 The book extends the knowledge on wetland ecosystem services based on the new research The information combines the achievements gained in carbon sequestration nutrient accumulation macrophyte decomposition wastewater treatment global warming mitigation in constructed as well as natural wetlands across the globe The book presents up to date results of ongoing research and the content of the book could be used by wetland scientists researchers engineers designers regulators decision makers universities teachers landscape engineers and landscape planners as well as by water authorities water regulatory offices or wastewater treatment research institutions **Bracing for the Apocalypse** Anna Maria Bounds,2020-06-04 Increasing American fear about terrorism environmental catastrophes pandemics and economic crises has fueled interest in prepping confronting disaster by mastering survivalist skills This trend of self reliance is not merely evidence of the American belief in the power of the individual rather this pragmatic shift away from expecting government aid during a disaster reflects a weakened belief in the bond between government and its citizens during a time of crisis This ethnographic study explores the rise of the urban preppers subculture in New York City shedding light on the distinctive approach of city dwellers in preparing for disaster With attention to the role of factors such as class race gender and one s expectations of government it shows that how one imagines Doomsday affects how one prepares for it Drawing on participant observation the author explores preppers views on the central question of whether to bug out or hunker down in the event of disaster and examines the ways in which the prepper economy increases revenue by targeting concerns over developing skills building networks securing equipment and arranging a safe locale A rich qualitative study Bracing for the Apocalypse will appeal to scholars of sociology and anthropology with interests in urban studies ethnography and subcultures **Machel Study 10-year Strategic Review**

,2009 The organisation of this report aims to heighten our understanding of the myriad ways in which armed conflict affects children and how children regard their participation not only in war but in programmes aimed at preventing violence against them and in promoting their recovery and reintegration The central message of this 10 year strategic review is that war violates every right of the child The report thus frames its findings within three categories political and diplomatic actions and responsibilities system wide international policies standards and architectures and prevention and response The Architecture of Waste Caroline O'Donnell,Dillon Pranger,2020-11-16 Global material crises are imminent In the very near future recycling will no longer be a choice made by those concerned about the environment but a necessity for all This means a paradigm shift in domestic behavior manufacturing construction and design is inevitable The Architecture of Waste provides a hopeful outlook through examining current recycling practices rethinking initial manufacturing techniques and proposing design solutions for second lives of material objects The book touches on a variety of inescapable issues beyond our global waste crisis including cultural psyches politics economics manufacturing marketing and material science A series of crucial perspectives from experts cover these topics and frames the research by providing a past present and future look at how we got here and where we go next the historical the material and the design Twelve design proposals look beyond the simple application of recycled and waste materials in architecture an admirable endeavor but one that does not engage the urgent reality of a circular economy by aiming to transform familiar yet flawed material objects into closed loop resources Complete with over 150 color images and written for both professionals and students The Architecture of Waste is a necessary reference for rethinking the traditional role of the architect and challenging the discipline to address urgent material issues within the larger design process
