Observations On The Spiritual Situation Of The Age:

Observations on "the Spiritual Situation of the Age" Jürgen Habermas, 1984 The essays in this collection provide an unusually rich set of original reflections on current German political social cultural religious and intellectual life

Observations on the Spiritual Situation of the Age Jürgen Habermas, 1984 The Rise and Demise of German Statism Gregg Kvistad, 1999-03-01 German statism as a political ideology has been the subject of many historical studies Whereas most of these focus on theoretical texts cultural works and vague traditions this study understands German statism as a functioning logic of political membership a logic that has helped to determine who is in and who is out with regard to the German political community Tracing statism from the early 19th century through German unification and beyond in the 1990s the author argues that with its central concern for a political loyalty that is vetted from above it historically served the function of stabilizing the political order and containing democratic mobilization Beginning in the 1960s however a mobilized German democratic consciousness from below gradually rejected statism as anachronistic for informing political and policy debate and German political institutions began to respond to kind **Academia and the Luster of Capital** Sande Cohen, Ideas says Sande Cohen have attained commodity status in the academy and knowledge is now seen as another capitalistic industry In *Academia and the Luster of Capital* Cohen both reveals and interrogates the specific and material workings of this economy of the marketplace of ideas Cohen uses paradigms from Baudrillard Lyotard Deleuze and Guattari to assemble a war machine against the well oiled apparatus of self preservation and self reproduction of the academic institution In detailed and concrete arguments he challenges accepted theories of criticism especially university based myths *Academia and the Luster of Capital* constitutes a compelling statement for the abandonment of legitimating officiating paradigms of thought in all academic disciplines and outlines possibilities for the emergence of the new in thought in action

Poststructuralism and Critical Theory's Second Generation Alan D. Schrift, 2014-09-11 Poststructuralism and Critical Theory's Second Generation analyses the major themes and developments in a period that brought continental philosophy to the forefront of scholarship in a variety of humanities and social science disciplines and that set the agenda for philosophical thought on the continent and elsewhere from the 1960s to the present Focusing on the years 1960-1984 the volume examines the major figures associated with poststructuralism and the second generation of critical theory the two dominant movements that emerged in the 1960s Althusser Foucault Deleuze Derrida Lyotard Irigaray and Habermas Influential thinkers such as Serres Bourdieu and Rorty who are not easily placed in standard histories of the period are also covered Beyond this thematic essays engage with issues as diverse as the Nietzschean legacy the linguistic turn in continental thinking the phenomenological inheritance of Gadamer and Ricoeur the influence of psychoanalysis the emergence of feminist thought and a philosophy of sexual difference the renewal of the critical theory tradition and the importation of continental philosophy into literary theory *The Vitality of Critical Theory* Harry F. Dahms, 2011-05-19

States that the critical theory of the Frankfurt School is as important today if not more so as it was at its inception during the 1930s This title looks at the distinguishing features of this tradition and how it is critical yet also complementary of other approaches in the social sciences especially in sociology Feminist Interpretations and Political Theory Carole Pateman, Mary Lyndon Shanley, 1991 This volume brings together exciting and provocative new feminist readings of famous classic and contemporary texts from Plato to Habermas The collection also includes examinations of the writings of Mary Wollstonecraft and Simone de Beauvoir that are usually excluded from the works conventionally held to comprise Western political thought The essays raise fundamentally important questions about the significance of sexual difference in the great works of political theory and draw attention to neglected arguments and silences in the texts No single feminist view of either the texts or the theoretical way forward informs these essays A wide diversity of feminist approaches and theoretical frameworks are represented forming a rich variety of interpretations and argument about such questions as the patriarchal construction of central political categories the relation between public and private life and the problem of equality and difference including differences among women This refreshing and stimulating collection will be indispensable for students of political thought and offers all those interested in the connection between the classic writings and current political discussions as accessible introduction to feminist argument Dark Territory in the Information Age Matthew G. Hannah, 2017-05-15 Through a detailed account of the West German census controversies of the 1980s this book offers a robust and geographical sense of what effective resistance and empowerment might mean in an age when the intensification of surveillance society appears to render us ever more passive and incapable of controlling our own registration **Weimar Intellectuals and the Threat of Modernity** Dagmar Barnouw, 1988-06-22 the range power and archival resourcefulness of Barnouw s book will make it impossible for anyone working in the field to ignore this powerful and disturbing historical meditation on the societal function and responsibility of the intellectual The German Quarterly a work of real value for patient readers American Journal of Sociology a forceful and compelling thesis that challenges our understanding of several seminal figures writing during the first half of the century Monatshefte In this challenging study of a complex period Barnouw investigates the works of seven representative figures of the Weimar republic Walter Rahtenau Robert Musil Thomas Mann Walter Benjamin Ernst J nger Hermann Broch and Alfred D blin **A Council that Will Never End** Paul Lakeland, 2013 Lumen Gentium Vatican II s Dogmatic Constitution on the Church changed how the church thinks about the laity holiness baptism and even the nature and purpose of the church itself In A Council That Will Never End the highly regarded ecclesialogist Paul Lakeland marks the fiftieth anniversary of this document s promulgation by taking up three major themes of the constitution analyzing the text and identifying some of the questions with which it leaves us Lakeland is convinced that Lumen Gentium leaves much unfinished business as any historical document must that attending to it will take us beyond much of the now sterile ecclesial divisions and that the ecclesiology of humility it implies marks the way that

theology must guide the church in the years ahead
