Oceania Neocolonialism Nukes Andre Vltchek:

Oceania Andre Vltchek, 2016-02-21 *Oceania neocolonialism nukes and bones* is a critical appraisal of the destructive consequences of colonialism and later neocolonialism and how they have reshaped and undermined the very essence of Pacific humanity It provides a rather uncomfortable but justifiably powerful moral message that the perils of Oceania need drawing attention to for the future survival of Pacific peoples and cultures who isolated from the main centres of global power are often relegated to the margins of development and progress Andre Vltchek spent five years living and traveling throughout Oceania During his journey he interviewed politicians social workers journalists teachers doctors and the local inhabitants He became friends with the great Pacific writer Epeli Hau ofa who declared him an honorary citizen of Oceania and he intricately documented the appalling effects Western government policies corporate strategies and military operations were having on the islands and the peoples of the Pacific

Blue Legalities Irus Braverman, Elizabeth R. Johnson, 2020-01-17 The ocean and its inhabitants sketch and stretch our understandings of law in unexpected ways Inspired by the blue turn in the social sciences and humanities *Blue Legalities* explores how regulatory frameworks and governmental infrastructures are made reworked and contested in the oceans Its interdisciplinary contributors analyze topics that range from militarization and Maori cosmologies to island building in the South China Sea and underwater robotics Throughout *Blue Legalities* illuminates the vast and unusual challenges associated with regulating the turbulent materialities and lives of the sea Offering much more than an analysis of legal frameworks the chapters in this volume show how the more than human ocean is central to the construction of terrestrial institutions and modes of governance By thinking with the more than human ocean *Blue Legalities* questions what we think we know and what we don't know about oceans our earthly planet and ourselves Contributors Stacy Alaimo Amy Braun Irus Braverman Holly Jean Buck Jennifer L Gaynor Stefan Helmreich Elizabeth R Johnson Stephanie Jones Zsafia Korosy Berit Kristoffersen Jessica Lehman Astrida Neimanis Susan Reid Alison Rieser Katherine G Sammler Astrid Schrader Kristen L Shake Phil Steinberg

Oceania André Vltchek, 2009 Andr Vltchek has compiled a stunning record in evoking the reality of the contemporary world not as perceived through the distorting prisms of power and privilege but as lived by the myriad victims He has also not failed to trace the painful and particularly for the West shameful realities to their historical roots In this work Vltchek extends his penetrating gaze to a lovely desecrated almost forgotten vast area of the world Oceania which he shows to be a microcosm of almost all major problems faced by our planet He brings to light the strength and courage of the people and their achievements and explores the hopes for decent recovery and survival if the powerful can allow themselves to comprehend what they have done and to accept the responsibility of actually protecting their victims instead of mouthing comforting and self serving slogans Noam Chomsky

Aurora Andre Vltchek, 2016-09-29 *Aurora* is a tremendous work *Aurora* is what a literary work should be fully human It is also what used to be known as a major literary work because it's rare to its time It represents a leading edge of

consciousness courage and social need A major work That s why it must be buried as we know I m glad I can be part of it Aurora is written at a consistently intense dynamic level I wish it could be 500 pages and dropped like a sonic boom on all the acclaimed literary centers of the world and be released like a climatic change for the good in the rest of the world Perhaps the most vital feature or effect of Aurora is that it expands consciousness or perception It thinks the unthinkable the bankruptcy and worse of The Louvre etc the culture It does what a lot of great works of art do it criticizes art itself explicitly and implicitly and in doing so helps to make the needed room for itself in the world of art and in the world in general It creates and helps generate new thought understanding perception going forward It helps not only express the full human condition it helps transform it It s a working work of art a badly needed new experience It enters the battle It will be ignored dismissed and fought by the old world while by the new world it will be part of another story entirely Tony Christini author of Homefront
