Past Question Paper Civic Education 2014

Donald M. Gooch, Michael T. Rogers

Past Question Paper Civic Education 2014:

Civic Education in the Twenty-First Century Donald M. Gooch, Michael T. Rogers, 2015-09-18 Imagine an America where politicians governmental institutions schools new technologies and interest groups work together to promote informed engaged citizens Civic Education in the Twenty First Century brings together scholars from various disciplines to show how such a United States is possible today Inspired by Alexis de Tocqueville s analysis of American democracy in the early 1800s this edited volume represents a multidimensional evaluation of civic education in its new and varied forms While some lament a civics crisis in America today Civic Education in the Twenty First Century raises hope that we can have an informed and active citizenry We find the activities of a number of politicians government institutions schools and interest groups as promising developments in the struggle to educate and engage Americans in their democracy New technologies and new innovations in civic education have laid the foundation for a revitalized American civic ecology With Civic Education in the Twenty First Century we call for the United States to make these practices less isolated and more common throughout the country The volume is broken into three major sections First there are four chapters exploring the history and philosophical debates about civic education particularly with respect to its role in America s educational institutions Then the second section provides seven groundbreaking inquiries into how politicians and political institutions can promote civic education and engagement through their routine operations As some examples this section explores how politicians through campaigns and judiciaries through community programs enhance civic knowledge and encourage civic engagement This section also explores how new technologies like the Internet and social media are increasingly used by government institutions and other entities to encourage a more politically informed and engaged citizenry Finally the third section contains six chapters that explore programs and practices in higher education that are enhancing civic education engagement and our knowledge of them From the virtual civics campus of Fort Hayes State to citizens academies throughout the country this section shows the possibilities for schools today to once again be civics actors and promoters

Influences of the IEA Civic and Citizenship Education Studies Barbara Malak-Minkiewicz, Judith Torney-Purta, 2021-05-26 This open access book identifies the multiple ways that IEA s studies of civic and citizenship education have contributed to national and international educational discourse research policymaking and practice The IEA International Civic and Citizenship Education Study ICCS first conducted in 2009 was followed by a second cycle in 2016 The project was linked to the earlier IEA Civic Education Study CIVED 1999 2000 IEA s ICCS remains the only large scale international study dedicated to formal and informal civic and citizenship education in school It continues to make substantial contributions to understanding the nature of the acquired civic knowledge attitudes and participatory skills It also discusses in depth how a wide range of countries prepare their young people for citizenship in changing political social and economic circumstances The next cycle of ICCS is planned for 2022 In this book more than 20 national representatives and international scholars from Europe Latin America Asia and

North America assess how the processes and findings of the 2009 and 2016 cycles of ICCS and CIVED 1999 2000 have been used to improve nations understanding of their students civic knowledge beliefs attitudes current civic related behaviors and intentions for future participation in a comparative context There are also chapters summarizing the secondary analysis of those studies results indicating their usefulness for educational improvement and reflecting on policy issues The analyses and reflections in this book provide timely insight into international educational discourse policy practice and research in an area of education that is becoming increasingly important for many societies *Civic and Citizenship Education in Volatile Times* Kerry J Kennedy,2019-04-23 The book highlights current issues influencing civic and citizenship education and their theoretical underpinnings It provides an overview of the key features influencing democratic deconsolidation suggests ways in which civic and citizenship education needs to be reframed in order to fit this new political environment and demonstrates how social media will play a significant role in any future for civic and citizenship education Currently democratic institutions are under attack democratic values are threatened and there is a wide scale retreat from the liberal consensus that has underpinned liberal democracies internationally These trends can be seen in events like Brexit the election of a right wing populist President of the United States and anti democratic governments in parts of Europe It is this change in the direction of political ideology that is currently deconsolidating democracy and thus challenging traditional approaches to civic and citizenship education What is urgently needed is an understanding of these current trends and their implications for thinking in new ways about civic and citizenship education in the 21st century Civil Democracy Protection Uwe Backes,Thomas Lindenberger,2023-12-20 Civil Democracy Protection is an overview of attempts by organisations to oppose groups that are perceived to threaten democracy The book traces the history of civil democracy protection actors from the establishment of democratic constitutional states up to the present day and develops a set of systematic and comparative approaches The central question it explores is What significance do civil actors have for the establishment and consolidation of democratic constitutional states especially in relation to the protection of democracy by state institutions The volume includes contributions from historians and social scientists who combine idiographic approaches that focus on the specifics of individual cases with nomothetic approaches that aim to provide generalisable insights incorporating historical experiences from various European countries and the USA in the 20th and early 21st century This book will be of interest to scholars of democracy protection civil society consolidation of democracy and anti extremism The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution CC BY 4.0 International license *Rethinking Ethical-Political Education* Torill Strand,2020-07-29 This book offers a variety of outlooks and perspectives on the constitutive values and formative norms of a society reflected by discourses on ethical political education It also discusses conceptual and critical philosophical works combined with empirical studies The book is divided into three parts the first part describes contemporary youth s tangible experience of and reflections on ethical

political issues while the second part explores the potential powers and pitfalls of educational philosophies old and new The third part highlights cutting edge issues within the humanities and social sciences and examines the prospects of a fruitful rethinking of ethical political education in response to today's pressing issues By addressing current dilemmas with diligence and insight the authors offer solid arguments for new theoretical and practical directions to promote philosophical clarification and advance research Intended for students teachers and researchers the book provides fresh perspectives on the many facets of ethical political education and as such is a valuable contribution to educational research and debate

Grading Goal Four Antonia Wulff, 2020-04-14 For the third time in three decades world leaders reaffirmed their promise of Education For All when adopting Sustainable Development Goal 4 in 2015 It is the most far reaching commitment to quality and equity in education so far yet there is no consensus on what the agenda means in practice With a decade left until the 2030 deadline Grading Goal Four calls upon the education community to engage more thoughtfully and critically with SDG 4 and related efforts As an ever growing number of actors and initiatives claim to contribute to its achievement it is becoming clear that the ambitious but broad priorities within the goal are vulnerable to cherry picking and misrepresentation placing it at the heart of tensions between instrumentalist and rights based approaches to education This text a critical analysis of SDG 4 provides a framework for examining trends and developments in education globally As the first volume that examines early implementation efforts under SDG 4 Grading Goal Four formulates a critique along with strategies for moving forward By scrutinising the challenges tensions and power dynamics shaping SDG 4 it advances rights based perspectives and strategies for effective implementation and builds capacity for strengthened monitoring and analysis of the goal
