**De l'organisation de la famille chez les Basques** Eugène Cordier,1869 *The Poetics of Multilingualism - La Poétique du plurilinguisme* Patrizia Noel Aziz Hanna,Levente Seláf,2017-01-06 Poetica et Metrica 2 One of the most fascinating aspects of the poetics of multilingualism is that it reveals national literatures to be an outcome of transcultural reflection This kind of reflection can surface in lexical borrowings and inventions in attempts at imitating foreign language

features and in combining and improvising stylistic and linguistic devices The experiments presented in this book range from idiosyncratic and forced solutions to the partly unconscious creation of new genres from situations of cultural contact Multilingualism as such turns out to be basic for the emergence of vernacular literatures While research on the poetics of multilingualism is usually restricted to specific authors languages genres or epochs this book addresses the issue from the perspective of its general systematics and reflects the diversity of the phenomenon It provides facets from individual authors poetics to conventionalised features of poetics and from written to oral and sung products of multilingual creation By focusing on the topic s ontology its basic categories and relations the volume demonstrates the fundamental importance of multilingualism for literary and linguistic theory with studies on a number of European countries and regions including multilingualism in the literature and literary traditions of the Alsace the Basque Country England France Germany Hungary Italy Ireland the Netherlands Russia Sardinia and Spain

Forrest, 1996 This book presents a provincial view of the French Revolution and assesses the experience of revolution across a broad swathe of south western France in an area which increasingly looked to Bordeaux as its capital city Here the Revolution was not simply a pale reflection of events in Paris Local conflicts and personal rivalries are vital to our understanding of the shape of events in the region as are contrasting traditions of religious affiliation peasant radicalism and obedience to the state The book examines the Revolution within a thematic framework and discusses such aspects as the growth of a local political culture the incidence of rural insurrection religious responses to the Revolution the chequered appeal of federalism and the uneven experience of Terror and political repression **Minority Theatre on the Global Stage** Madelena Gonzalez, Hélène Laplace-Claverie, 2012-03-15 All over the world in the most varied contexts contemporary theatre is a rich source for increasing the visibility of communities generally perceived by others as minorities or those who see themselves as such Whether of a linguistic ethnic political social cultural or sexual nature the claims of minorities enjoy a

privileged medium in theatre Perhaps it is because theatre itself is linked to the notions of centre and periphery conformism and marginality domination and subjugation notions that minority theatre constantly examines by staging them that it is so sensitive to the issues of troubled and conflicted identity and able to give them a universal resonance Among the questions raised by this volume is that of the relationship between the particular and the more general aims of this type of theatre How is it possible to speak to everyone or at least to the majority when one is representing the voice of the few Beyond such considerations urgent critical examination of the function and aims of minority theatre is needed To what kind of public is such drama addressed Does it have an exemplary nature How is it possible to avoid the pitfalls and the dead end of ghettoization Certain types of audience specific theatre are examined in this context as for example theatre as therapy theatre as an educational tool and gay theatre Particular attention is paid to the claims of minorities within culturally and economically dominant western countries These are some of the avenues explored by this volume which aims to answer fundamental questions such as What is minority theatre and why does theatre a supposedly bourgeois if not to say elitist art form have such affinity with the margins What if particularly in contemporary society the theatre as a form were merely playing out its fundamentally marginal status The authors of these essays show how different forms of minority theatre can challenge cultural consensus and homogenization while also aspiring to universality They also address the central question of the place and status of apparently marginal forms of theatre in the context of globalization and in doing so re examine theatre itself as a genre Not only do they illustrate how minority theatre can challenge the dominant paradigms that govern society but they also suggest their own more flexible and challenging frameworks for theatrical activity

*Memory and World War II* Francesca Cappelletto, 2005-08-01 Foreword by Michael Lambek The death and destruction of war leave behind scars and fears that can last for generations This book considers the connections between memory and violence in the wake of World War II Covering the range of European experiences from East to West Memory and World War II takes a long term approach to the study of trauma at the local level It challenges the notion of collective memory and calls for an understanding of memory as a fine line between the individual and society the private and the public International contributors from a range of disciplines seek new ways to incorporate local memory within national history and consider whether memories of extreme violence can be socially transformed Personal testimony reveals the myriad ways in which communities react to and reconstruct the horrors of war What we learn is that terrifying experiences reside not only in memories of the past but remain embedded in present day lives
