Combs, 1987 Perceiving, behaving, becoming , 1971 Perceiving, Behaving, Becoming , 1976 **Perceiving, Behaving, Becoming** , 1971 Perceiving, Behaving, Becoming: Lessons Learned H. Jerome Freiberg, 1999-02-15

In 1962 ASCD's *Perceiving Behaving Becoming A New Focus for Education* provided bold insights on the psychological foundation of education. Some of the most compelling questions in education today were first asked in this groundbreaking work which included chapters by preeminent scholars Arthur Combs, Earl Kelley, Abraham Maslow, and Carl Rogers. Although we cannot predict what current information future generations will need to know, the book's Introduction states that creating schools that encourage the development of persons with adequate fully functioning personalities is the best way to contribute some degree of stability to an uncertain future. Decades later, in preparing *Perceiving Behaving Becoming Lessons Learned*, editor H. Jerome Freiberg invited distinguished scholars in the field of affective, humanistic education and psychology to review these four chapters from the 1962 book to provide a context for lessons learned for future generations of educators. Each author in *Lessons Learned* works with teachers, administrators, and schools and offers a distinct perspective on the human side of teaching and learning. Their analyses raise significant issues such as whether an emphasis on academic standards ignores the education of the whole student and what schools that are committed to an environment of trust and respect look like. *Lessons Learned* promises to further the cause of education that focuses on the person. By understanding the evolution of our educational past, says Freiberg, perhaps we can shape a future that will better meet the needs of generations that come after us. Handbook on Values Education and Student Wellbeing Terence Lovat,Ron Toomey,Neville Clement,2010-08-05 Informed by the most up to date research from around the world as well as examples of good practice this handbook analyzes values education in the context of a range of school based measures associated with student wellbeing These include social emotional moral and spiritual growth elements that seem to be present where intellectual advancement and academic achievement are being maximized This text comes as values education widens in scope from being concerned with morality ethics civics and citizenship to a broader definition synonymous with a holistic approach to education in general This expanded purview is frequently described as pedagogy relating to values and wellbeing This contemporary understanding of

values education or values and wellbeing pedagogy fits well with recent neuroscience research This has shown that notions of cognition or intellect are far more intertwined with social and emotional growth than earlier educational paradigms have allowed for In other words the best laid plans about the technical aspects of pedagogy are bound to fail unless the growth of the whole person social emotional moral spiritual and intellectual is the pedagogical target Teachers and educationalists will find that this handbook provides evidence culled from both research and practice of the beneficial effects of such a values and wellbeing pedagogy

Curriculum Work and Social Justice Leadership in a Post-Reconceptualist Era Allan Michel Jales Coutinho, 2022-05-29 This book urgently confronts systems of privilege and oppression within education and combines concepts including bifocality currere and conscientiza o to highlight the role of dialogical and autobiographical reflection in dismantling neoliberal and colonial logics at the level of theory policy and practice The author purposefully connects methods and concepts from curriculum social studies and the arts and offers insights into identity formation social position and social transformation As such Jales Coutinho presents an opportunity for curricularists to evaluate the connections between their lives and their work within and across mutually constitutive discursive and material contexts and critically analyze their agency their relational encounters and their position as changemakers within unjust social realities Focusing on the intersection of curriculum theory with educational policy and leadership the text calls for a mutual becoming conscious to illustrate how this can affect a paradigmatic shift toward social justice education lived curriculum and emancipatory pedagogy With the potential to expand and set the tone for a long standing curriculum conversation for curriculum theorists educational leaders and policymakers concerning the contours and dimensions of our work in schools research institutions and policy circles it crucially asks what does it mean to engage in the complicated conversation of curriculum work in a post reconceptualist era
