Mohanty, 2012-12-06 These essays span a period of fourteen years The earliest was written in 1960 the latest in 1983 They all represent various attempts to understand the motives and the central concepts of Husserl's transcendental phenomenology and to locate the latter in the background of other varieties of transcendental philosophy Implicitly they also contain a defense of transcendental philosophy and make attempts to respond to the more familiar criticisms against it It is hoped that they will contribute to a better understanding not only of Husserl's transcendental phenomenology but also of transcendental philosophy in general The ordering of the essays is not chronological They are rather divided thematically into three groups The first group of six essays is concerned with relating Husserlian phenomenology to more contemporary analytic concerns in fact the opening essay on Husserl and Frege establishes a certain continuity of concern with my last published book with that title Of these Essay 2 was written for an American Philosophical Association Eastern Division symposium in which the other symposiast was John Searle The discussion in that symposium concentrated chiefly on the relation between intentionality and causality which led me to write Essay 6 later read as the Gurwitsch Memorial Lecture at the Society for Phenomenology and Existential Philosophy meetings in 1982 at Penn State      *Translating Across Cultures* Luminița Frențiu, Hortensia Pârlog, 2014-07-24 Translating

Across Cultures is a collection of nine papers given at the 21st BAS British and American Studies conference held in Timișoara in May 2011. They focus on translation problems that may arise at various levels from word to translation unit when rendering a literary, legal, economic or hybrid text genre into a second language as well as on some of the methodological issues raised by this process. The papers attempt to give answers to questions including why or what cultural elements are important when mediating between languages or cultures. What equivalence can be found for certain cultural lexical items for certain collocations or for business metaphors in the target language. The book also investigates the translation of 21st century Newspeak as well as cases of lexical gaps, reveals similarities and differences in the linguistic expression of various concepts and suggests possible ways of dealing with certain difficult translation problems. *Words* Dale D.

Johnson, 2018-04-17. Written by respected authorities in the fields of education and literacy studies. *Words*. The Foundation of Literacy is a groundbreaking book for teachers, administrators and education students. Dale and Bonnie Johnson present a fresh, inspiring reminder of why studying language from word origins to word structure is such a vital first step in the development of students' vocabulary, literacy, writing skills and overall ability to learn. At a time when high-stakes testing has squeezed substance from many curricula, Johnson and Johnson provide ways to enhance students' understanding, interest and appreciation of language and all its subtleties. *Words* explores how meaning in language is created by the use and interrelationships of words, phrases and sentences, their denotations, connotations, implications and ambiguities. From birth, most children exhibit a natural interest in language, its sounds, nuances and unpredictable qualities. It is important to sustain, stimulate and recapture that natural interest in the classroom, and *Words* provides a multitude of creative and practical techniques for doing so.

**Different Every Time** Marcus O'Dair, 2015-09-01. Robert Wyatt started out as the drummer and singer for Soft Machine, who shared a residency at Middle Earth with Pink Floyd and toured America with the Jimi Hendrix Experience. He brought a jazz mindset to the 1960s rock scene, having honed his drumming skills in a shed at the end of Robert Graves' garden in Mallorca, Spain. Wyatt's life took an abrupt turn in 1973 when he fell from a fourth-floor window at a party and was paralyzed from the waist down. He reinvented himself as a singer and composer with the extraordinary album *Rock Bottom*, which he followed with an idiosyncratic string of records that uniquely combine the personal and political. Along the way, Robert has worked with the likes of Brian Eno, Björk, Jerry Dammers, Charlie Haden, David Gilmour, Paul Weller and Hot Chip. Marcus O'Dair has talked to all of them; indeed, anyone who has shaped or been shaped by Wyatt over five decades. *Different Every Time* is the first biography of Robert Wyatt and it was written with his full participation. It includes illustrations by Alfreda Benge and photographs from Robert's personal archive. *The Review*, 1919 **Gramophone**
