Holcombe,2018-04-17 Tax exempt foundations grew substantially in the twentieth century both in their financial importance and in the scope of their activities This challenging book examines the economic cultural and intellectual implications of tax exempt organizations How do various tax laws influence foundations and what types of ideas do foundations produce How do the activities of foundations relate to the interests and intentions of their founders Does the economic management of foundation assets serve the public good or would such assets be better employed through the private sector Writing Off Ideas examines these and related questions primarily by looking at specific examples as well as the overall impact of foundation practices economically and socially Elite Art Worlds Eduardo Herrera,2020 The Centro Latinoamericano de Altos Estudios Musicales CLAEM in Buenos Aires operated for less than a decade but by the time of its closure in 1971 it had become the undeniable epicenter of Latin American avant garde music Providing the first in depth study of CLAEM author Eduardo Herrera tells the story of the fellowship program funded by the Rockefeller Foundation and the Di Tella family that by allowing the region s promising young composers to study with a roster of acclaimed faculty produced some of the most prominent figures within the art world including Rafael Aponte Lede Cori n Aharoni n and Blas Emilio Atehorta Combining oral histories ethnographic research and archival sources Elite Art Worlds explores regional discourses of musical Latin Americanism and the embrace articulation and resignification of avant garde techniques and perspectives during the 1960s But the story of CLAEM reveals much more intricate webs of US and Argentine philanthropy transnational currents of artistic experimentation and innovation and the role of art in constructing elite identities By looking at CLAEM as both an artistic and philanthropic project Herrera illuminates the relationships between foreign policy corporate interests and funding for the arts in Latin America and the United States against the backdrop of the Cold War **Bilharzia** John Farley,1991 Professor Farley describes how governments and organizations faced one particular tropical disease bilharzia or schistosomiasis **Catalog of Federal Domestic Assistance** ,2000 Identifies and describes specific government assistance opportunities such as loans grants counseling and procurement contracts available under many agencies and programs **Resolutions and Recommendations Adopted by the Assembly During Its ... Subcommittee on Foundations,1974 **Geopolitics and the Green Revolution** John H. Perkins,1997-12-14 During the last 100 years the worldwide yields of cereal grains such as wheat and rice have increased dramatically Since the 1950s developments in plant breeding science have been heralded as a Green Revolution in modern agriculture But what factors have enabled and promoted these technical changes And what are the implications for the future of agriculture This new book uses a framework of political ecology and environmental history to explore the Green Revolution s emergence during the 20th century in the United States Mexico India and Britain It argues

that the national security planning efforts of each nation were the most important forces promoting the development and spread of the Green Revolution when viewed in the larger scheme this period can be seen as the latest chapter in the long history of wheat use among humans which dates back to the neolithic revolution Efforts to reform agriculture and mitigate some of the harsh environmental and social consequences of the Green Revolution have generally been insensitive to the deeply embedded nature of high yielding agriculture in human ecology and political affairs This important insight challenges those involved in agriculture reform to make productivity both sustainable and adequate for a growing human population
