Analyzing the Elements of a Scientific Method

Read the following story and then answer the questions.

You and your friend are walking along a beach in Maine on January 15, at 8:00 am. You notice a thermometer on a nearby building that reads -1°C . You also notice that there is snow on the roof of the building and icicles hanging from the roof. You further notice a pool of sea water in the sand near the ocean. Your friend looks at the icicles and the pool and says, "How come the water on the roof is frozen and the sea water is not?" You answer, "I think that the salt in the sea water keeps it from freezing at -1°C ." You go on to say, "And I think under the same conditions, the same thing will happen tomorrow." Your friend asks, "How can you

be sure?" You answer, "I'm going to get some fresh water and some salt water and expose them to a temperature of -1°C and see what happens."

Empire of Hope David Leheny, 2018-11-15 Empire of Hope asks how emotions become meaningful in political life In a diverse array of cases from recent Japanese history David Leheny shows how sentimental portrayals of the nation and its global role reflect a durable story of hopefulness about the country's postwar path From the medical treatment of conjoined Vietnamese children victims of Agent Orange the global promotion of Japanese popular culture a tragic maritime accident involving a US Navy submarine to the 2011 tsunami and nuclear disaster this story has shaped the way in which political figures writers officials and observers have depicted what the nation feels Expressions of national emotion do several things they construct the boundaries of the national body they inform and discipline appropriate expression and they depoliticize messy problems that threaten to produce divisive questions about winners and losers Most important they work because they appear to be natural simple and expected expressions of how the nation shares feeling even when they paper over the extraordinary divergence in how the nation's citizens experience each incident In making its arguments Empire of Hope challenges how we read the relations between emotion and politics by arguing unlike those who build from the neuroscientific turn in the social sciences or those developing affect theory in the humanities that the focus should be on emotional representation rather than on emotion itself
