provides the finest examples of the poetic imagination Whiter is of his time but in his particular study of the associative powers of such a mind engaged in the process of creation he is far in advance of his time and has no immediate disciples in the later nineteenth century In the twentieth century however there was an increasing acknowledgement of Whiter s work and a more frequent appeal for the reissue of his book Originally published in 1967 the present edition was started in response to that appeal more than ten years before Mr Alan Over s tragic death in 1964 and incorporates the revisions and additions made by Whiter for his own projected second edition
