Paraprofessional Day 2013 In New York:

Social Reproduction and the City Simon Black, 2020 The transformation of child care after welfare reform in New York City and the struggle against that transformation is a largely untold story In the decade following welfare reform despite increases in child care funding there was little growth in New York's unionized center based child care system and no attempt to make this system more responsive to the needs of working mothers As the city delivered child care services on the cheap relying on non union home child care providers welfare rights organizations community legal clinics child care advocates low income community groups activist mothers and labor unions organized to demand fair solutions to the child care crisis that addressed poor single mothers need for quality affordable child care as well as child care providers need for decent work and pay Social Reproduction and the City tells this story linking welfare reform to feminist research and activism around the crisis of care social reproduction and the neoliberal city At a theoretical level Simon Black's history of this era presents a feminist political economy of the urban welfare regime applying a social reproduction lens to processes of urban neoliberalization and an urban lens to feminist analyses of welfare state restructuring and resistance Feminist political economy and feminist welfare state scholarship have not focused on the urban as a scale of analysis and critical approaches to urban neoliberalism often fail to address questions of social reproduction To address these unexplored areas Black unpacks the urban as a contested site of welfare state restructuring and examines the escalating crisis in social reproduction He lays bare the aftermath of the welfare to work agenda of the Giuliani administration in New York City on child care and the resistance to policies that deepened race class and gender inequities

Inclusive Pre-K & Kindergarten: Paula Kluth, Jaclyn Beljung, 2014-06-20 Preschool and kindergarten classrooms are unique settings that differ from the elementary and high school classrooms students experience at a later age They are designed to help children learn about learning In pre K and kindergarten classrooms playing moving and creating are all integral parts of daily lessons Teachers are charged with designing learning experiences that keep young students engaged allow choice and freedom and connect learners to one another Meeting the needs of diverse students in today's early childhood classrooms requires careful and targeted differentiation of curriculum instruction learning objectives and environment This six page laminated guide by Paula Kluth and Jaclyn Beljung provides recommendations for creating carefully designed and thoughtfully orchestrated inclusive classroom environments for children in pre K and kindergarten It includes a variety of ideas and strategies for Setting up the classroom Designing instruction for students with different needs Creating positive behavioral supports Making learning active Establishing productive collaborative relationships with families and colleagues

Under the Bus Caroline Fredrickson, 2010-01-12 Did you think you knew the facts about women and work Think again a terrific book utterly gripping Peter Edelman author of *So Rich So Poor* For women in professional and corporate jobs much of the discrimination and inequity faced in the past has been confronted and at least to some extent conquered But the fact is that we have a two tiered

system where some working women have a full panoply of rights while others have few or none at all We allow blatant discrimination by small employers Domestic workers are cut out of our wage and overtime laws Part time workers disproportionately women are denied basic benefits Laws have been written through a process of compromise and negotiation and in each case vulnerable workers were the bargaining chip that was sacrificed to guarantee the policy s enactment For these workers the system that was supposed to act as a safety net has become a sieve and they are still falling through Caroline Fredrickson is a powerful advocate and DC insider who has witnessed the legislative compromises that leave out temps farmworkers staff at small businesses immigrants and others who fall outside an intentionally narrow definition of employees The women in this fast growing part of the workforce are denied minimum wage maternity leave health care the right to unionize and protection from harassment and discrimination all within the bounds of the law If current trends continue their fate will be the future of all American workers An informative occasionally shocking exploration of the state of women s rights in the workplace Kirkus Reviews **Mayor Michael Bloomberg** Lynne A.

Weikart,2021-09-15 In Mayor Michael Bloomberg Lynne A Weikart dives into the mayoralty of Michael Bloomberg offering an incisive analysis of Bloomberg s policies during his 2002 2014 tenure as mayor of New York and highlighting his impact on New York City politics Michael Bloomberg became mayor of New York just four months after the 9 11 terrorist destruction of the World Trade Center and he lead the rebuilding of a physically and emotionally devastated city so well that within two years the city had budget surpluses Weikart reveals how state and federal governments constrained Bloomberg s efforts to set municipal policy and implement his strategic goals in the areas of homelessness low income housing poverty education and crime External powers of state and federal governments are strong currents and Bloomberg s navigation of these currents often determined the outcome of his efforts Weikart evaluates Michael Bloomberg s mayoral successes and failures in the face of various challenges externally the constraints of state government and mandates imposed by federal and state courts and internally the impasse between labor unions and Bloomberg Weikart identifies and explores both the self created restrictions of Mayor Bloomberg s own management style and the courage of Mike Bloomberg s leadership **Para Power**

Nick Juravich,2024-12-10 Paraprofessional educators entered US schools amidst the struggles of the late 1960s Immersed in the crisis of care in public education paras improved systems of education and social welfare despite low pay and second rate status Understanding paras as key players in Black and Latino struggles for jobs and freedom Nick Juravich details how the first generation of paras in New York City transformed work in public schools and the relationships between schools and the communities they served Paraprofessional programs created hundreds of thousands of jobs in working class Black and Latino neighborhoods These programs became an important pipeline for the training of Black and Latino teachers in the1970s and early 1980s while paras organizing helped drive the expansion and integration of public sector unions An engaging portrait of an invisible profession Para Power examines the lives and practices of the first generation of paraprofessional educators

against the backdrop of struggles for justice equality and self determination

Unions and the City Ian Thomas MacDonald, 2017-06-13 Labor unions remain the largest membership based organizations in major North American cities even after years of decline Labor continues to play a vital role in mobilizing urban residents shaping urban conflict and crafting the policies and regulations that are transforming our urban spaces As unions become more involved in the daily life of the city they find themselves confronting the familiar dilemma of how to fold union priorities into broader campaigns that address nonunion workers and the lives of union members beyond the workplace If we are right to believe that the future of the labor movement is an urban one union activists and staffers urban policymakers elected officials and members of the public alike will require a fuller understanding of what impels unions to become involved in urban policy issues what dilemmas structure the choices unions make and what impact unions have on the lives of urban residents beyond their members Unions and the City serves as a road map toward both a stronger labor movement and a socially just urbanism The book presents the findings of a collaborative project in which a team of labor researchers and labor geographers based in New York City and Toronto investigated how and why labor unions were becoming more involved in urban regulation and urban planning The contributors assess the effectiveness of this involvement in terms of labor goals such as protecting employment levels retaining bargaining relationships with employers and organizing new workforces as well as broader social consequences of union strategies such as expanding access to public services improving employment equity and making neighborhoods more affordable Focusing on four key economic sectors film hospitality green energy and child care this book reveals that unions can exert a surprising level of influence in various aspects of urban policymaking and that they can have a significant impact on how cities are changing and on the experiences of urban residents Contributors Simon Black Brock University Maria Figueroa Cornell University Lois S Gray Cornell University Ian Thomas MacDonald University of Montreal James Nugent University of Toronto Susanna F Schaller City College Center for Worker Education Steven Tufts
