Parenting A Dynamic Perspective:

Parenting George W. Holden, 2014-10-10 Written from a psychological perspective while integrating cross disciplinary viewpoints this fully updated Second Edition takes a parent centered approach to exploring topics such as the reasons behind parental behavior the effect parents and children have on one another and social policy s ability to help families Including the latest statistics on family functioning and with coverage of contemporary issues George Holden s *Parenting* conveys the process of parenting in all its complexities

Parenting George W. Holden, Amanda W. Harrist, 2024-09-10 George Holden and Amanda Harrist embrace the idea that parenting is a dynamic process children affect parents just as much as parents affect children A multi level ecological approach to parenting and childrearing allows a full range of parenting styles covering topics from co parenting evolutionary views human behavioral genetics to religious influences and addressing challenges to be encountered across parenting courses such as family violence behavior problems and the role of pathology in the family The completely updated *Parenting A Dynamic Process* Fourth Edition presents research in a way that is accessible and interesting but also accurate current and intellectually rich Although written from a psychological perspective views and applications from other disciplines including sociology criminology anthropology and pediatrics are also discussed where appropriate The text discusses contemporary issues such as fertility problems daycare marital conflict whether or not to use physical punishment divorce remarriage and step parents parenting emerging and young adults LGBTQ parents aging parents the effects of poverty risks and benefits of media use among children and family violence Additionally Holden and Harrist include selected studies from developing and non Western countries as well as recent statistics on such topics as US world birthrate birth problems adolescent pregnancy child injury divorce and remarriage child maltreatment and certain social policy issues

Parenting George W. Holden, 2019-12-19 The Third Edition of George W Holden s *Parenting A Dynamic Perspective* provides a highly accessible and intellectually rich review of what is currently known about parenting Written from a psychological perspective but with applications to other disciplines the text discusses a wide range of contemporary issues such as fertility problems daycare marital conflict divorce gay parents and family violence Additionally Holden includes studies from developing and non Western countries as well as recent statistics on such topics as U S and world birthrate birth problems adolescent pregnancy child injury divorce and remarriage child maltreatment and certain social policy issues

Parents And The Dynamics Of Child Rearing George W Holden,2019-07-11 Research into parent child relationships is a diverse field of inquiry attracting investigators from a variety of disciplines and subdisciplines This book integrates and synthesizes the literature by focusing on issues concerning the parent The text is organized around four key questions What determines parental behavior What are the effects of parenting on children What makes some parents more effective than others Why do some parents maltreat their children George Holden adopts a dynamic rather than a static perspective on parenting This dynamic approach reflects parents capacity to modify their behavior as they respond to changes in their children and in their own lives Throughout the text historical antecedents as well as methodological and theoretical issues are highlighted Although the book is designed for advanced courses focusing on the parent child relationship it also provides a good overview for those interested in current research concerning parenting

The Cambridge Handbook of Parenting Amanda Sheffield Morris,Julia Mendez Smith,2022-12-15 Parenting is a critical influence on the development of children across the globe This handbook brings together scholars with expertise on parenting science and interventions for a comprehensive review of current research It begins with foundational theories and research topics followed by sections on parenting children at different ages factors that affect parenting such as parental mental health or socioeconomic status and parenting children with different characteristics such as depressed and anxious children or youth who identify as LGBTQ It concludes with a section on policy implications as well as prevention and intervention programs that target parenting as a mechanism of change Global perspectives and the cultural diversity of families are highlighted throughout Offering in depth analysis of key topics such as risky adolescent behavior immigration

policy father engagement family involvement in education and balancing childcare and work this is a vital resource for understanding the most effective policies to support parents in raising healthy children **Handbook of Parenting** Marc H. Bornstein, 2019-02-01 This highly anticipated third edition of the Handbook of Parenting brings together an array of field leading experts who have worked in different ways toward understanding the many diverse aspects of parenting Contributors to the Handbook look to the most recent research and thinking to shed light on topics every parent professional and policymaker wonders about Parenting is a perennially hot topic After all everyone who has ever lived has been parented and the vast majority of people become parents themselves No wonder bookstores house shelves of how to parenting books and magazine racks in pharmacies and airports overflow with periodicals that feature parenting advice However almost none of these is evidence based The Handbook of Parenting is Period Each chapter has been written to be read and absorbed in a single sitting and includes historical considerations of the topic a discussion of central issues and theory a review of classical and modern research and forecasts of future directions of theory and research Together the five volumes in the Handbook cover Children and Parenting the Biology and Ecology of Parenting Being and Becoming a Parent Social Conditions and Applied Parenting and the Practice of Parenting Volume 3 Being and Becoming a Parent considers a large cast of characters responsible for parenting each with her or his own customs and agenda and examines what the psychological characteristics and social interests of those individuals reveal about what parenting is Chapters in Part I on The Parent show just how rich and multifaceted is the constellation of children s caregivers Considered first are family systems and then successively mothers and fathers coparenting and gatekeeping between parents adolescent parenting grandparenting and single parenthood divorced and remarried parenting lesbian and gay parents and finally sibling caregivers and nonparental caregiving Parenting also draws on transient and enduring physical personality and intellectual characteristics of the individual The chapters in Part II on Becoming and Being a Parent consider the intergenerational transmission of parenting parenting and contemporary reproductive technologies the transition to parenthood and stages of parental development and then chapters turn to parents well being emotions self efficacy cognitions and attributions as well as socialization personality in parenting and psychoanalytic theory These features of parents serve many functions they generate and shape parental practices mediate the effectiveness of parenting and help to organize parenting *The Dynamics of Powerful Parenting* Raymond Messer, 2005 The Dynamics of Powerful Parenting is a book about power the power held by a parent to shape the development of a child and the power of a child to either accept or reject those efforts Often when things are not working well for parents with their children they will continue doing the same things yet with ever more vigor Usually the result will be more of the same only worse A secret to understanding the dynamics of many human behaviors lies in the paradox of the Chinese Finger Puzzle aka Chinese Handcuff The Chinese finger puzzle is a tube woven from bamboo shoots that is several inches long and about the diameter of a person s fingers true to its nature the tube will narrow as its ends are pulled Thus

when the tube is slipped over the ends of fingers or thumbs on opposing hands the subject's efforts to pull his or her fingers apart are met with increasing resistance from the device. So it is with much of being human. The thing that people wish to avoid most is the very thing that results from their efforts to do so. Dynamics is a book written with this paradox in mind. It is a book of insights about parenting that turns upside down many of the things that are currently held dear in traditional parenting efforts. It is a book that downplays the use of punishment but never overlooks the need for discipline and responsibility. Dynamics encourages parents to think about what they are doing, how they are doing it, and what are they are experiencing as a result, then provides useful tools for changing undesired outcomes. It is a book that can produce positive results that will benefit generations yet unborn.
