Climate Control Project popularized a livable and decidedly American version of postwar modern architecture Gordon's devotion to what she called the American Style attracted the attention of Frank Lloyd Wright who became her ally and collaborator Gordon's editorial programs reshaped ideas about American living and by extension what consumers bought what designers made and what manufacturers brought to market This incisive assessment of Gordon's influence as an editor critic and arbiter of domestic taste reflects more broadly on the cultures of consumption and identity in postwar America Nearly 200 images are featured including work by Ezra Stoller Maynard Parker and Julius Shulman This important book champions an often neglected source the consumer magazine as a key tool for deepening our understanding of mid century architecture and design
