The Pleasures of Crime David Platten, 2011-12 For 150 years the French public and literati have enjoyed a love affair with crime fiction This book investigates the nature of this relationship and how through periods of dramatic social and political change in France it has flourished It challenges the conventional view of a popular genre feeding a niche market depicting crime fiction instead as a field of creative endeavour which has gradually matured into one of considerable literary fertility By inviting us to share secrets and crack codes creating suspense and at times not shirking from presenting horrific events in graphic language the crime story brings into play the intellect and emotions of its readership This book explores both this intrinsic literary value of the crime novel and its extrinsic witness to historical events and cultural trends arguing that these apparently distinct aspects are in fact dynamic interrelated parts of the same whole This blend of cultural history with literary analysis allows for the discussion of themes such as politics memory the urban environment and youth cultures mixed with case studies of major French crime writers including Gaston Leroux Georges Simenon Jean Patrick Manchette Daniel Pennac and Fred Vargas

, *The Paris Zone* James Cannon, 2016-02-24 Since the mid 1970s the colloquial term zone has often been associated with the troubled post war housing estates on the outskirts of large French cities However it once referred to a more circumscribed space the zone non aedificandi non building zone which encircled Paris from the 1840s to the 1940s This

unusual territory although marginal in a social and geographical sense came to occupy a central place in Parisian culture Previous studies have focused on its urban and social history or on particular ways in which it was represented during particular periods By bringing together and analysing a wider range of sources from the duration of the zone's existence this study offers a rich and nuanced account of how the area was perceived and used by successive generations of Parisian novelists including Zola and Flaubert poets songwriters artists photographers film makers politicians and town planners More generally it aims to raise awareness of a neglected aspect of Parisian cultural history while pointing to links between current and past perceptions of the city's periphery
