Pas d'enfant Ditelle Les Refus De La Maternité :

Pas d'enfant, dit-elle... Edith Vallée, 2005-01-01 La maternité paraît être pour beaucoup d'entre nous l'expression naturelle de l'aboutissement même de la féminité. La stérilité est alors tenue pour un malheur ou une malédiction et le refus de procréer est considéré comme une incompréhensible anomalie. Edith Vallée s'insurge contre ces fausses évidences qui assimilent la femme à la mère. À trente ans de distance des années du féminisme triomphant, celles de la contraception assumée, elle a rencontré des femmes qui, comme elle, ont fait le choix de ne pas avoir d'enfant. Dans cet ouvrage construit autour de récits de vie et de témoignages sur le non-désir d'enfant, l'auteur dresse le bilan sans esquiver les contradictions et les ambivalences de ce cheveu complexe des motivations de ce refus de la maternité. Plutôt que de se retrouver dans le miroir d'une image de mère que tous lui tendent, une femme peut cultiver tout simplement pour elle-même et pour les autres le bonheur d'être femme. Pas d'enfant, dit-elle

Edith Vallée, 1981 **Femmes Sans Enfants** Maya Paltineau, 2011 Quelles sont les femmes qui choisissent de ne pas avoir d'enfants ? Quelles explications donner ces choix et quels sont les modes de vie qui en découlent ? Comment ces femmes vivent-elles la notion de féminité, de maternité et de famille ? Un cadre de travail est mis en place pour construire une connaissance des questions posées par les femmes sans enfants : la société. Grâce à une enquête qualitative comprenant des entretiens semi-directifs avec des femmes qui n'ont pas d'enfants, ce travail de recherche révèle entre autres la place sociale que prennent les femmes qui ne sont pas mères. Les questionnements posés à la société par de tels modes de vie, les enjeux du refus de fonder une famille, ainsi qu'une redéfinition de la maternité et de la féminité. **Refus d'enfant/désir d'enfant** Aurélie Mairot, 2012 La notion de désir d'enfant s'est actualisée dans les années 1960 parallèlement à la révolution de la contraception. Encore difficilement interrogeable, le désir d'enfant se révèle complexe, mal délimité et teinté d'ambivalence. Les motivations conscientes et inconscientes individuelles et collectives placent la question de l'enfant au centre des préoccupations et celle de la parentalité comme expérience ultime de la vie adulte et ce d'autant plus que l'on est une femme. Les représentations socio-culturelles en Occident ont en effet longtemps limité la place des femmes, leur fonction maternelle. Présent comme l'opposé du désir d'enfant, le refus d'enfant n'est pourtant pas toujours synonyme d'absence de désir d'enfant. Situé en parallèle, il se développe comme ce dernier tout au long de la vie. De la naissance, parfois même avant l'âge adulte, le refus d'enfant est le résultat d'un enchaînement de causalités multiples et variées. Facteurs transgénérationnels, projections parentales, processus d'identification, de socialisation et facteurs socio-culturels concourent à la construction identitaire tout au long du parcours biographique. Loin des explications réductrices, le refus de maternité révèle lui aussi toute sa complexité. **Pas d'enfant** Anne Gotman, 2017-06-08

On constate une proportion croissante de personnes volontairement sans enfant. Quelles sont les raisons, explications, motivations et interprétations qu'en donnent les chercheurs et les intéressés eux-mêmes ? **No children, no cry** Anne-Sophie Crosetti, Valérie Piette, 2020-02-07 Le slogan féministe des années 1970 : « Un enfant quand je veux, si je veux, résonne encore aujourd'hui. Il pose la question de la liberté de choix dans l'espacement des naissances dans la décision des femmes d'être mère.

Il interroge peu le choix de ne pas être mère. Pourtant elles sont nombreuses avoir fait le choix d'une vie sans enfant. Face à l'évidence du naturel devant l'injonction moderne au désir d'enfant, ces femmes sont souvent qualifiées de déviantes d'anormales dégoûtées. Ne pas avoir d'enfant par choix demeura longtemps un impensé compris dans la recherche scientifique. Depuis plusieurs années, des mouvements et des groupes antinatalistes radicaux se font remarquer sur la scène médiatique par des déclarations fracassantes, des happenings ou des événements. Ceux et celles qu'on appelle désormais les croisés de la dénatalité se font plus visibles et revendiquent publiquement leur non-désir d'enfant. Ils et elles avancent des arguments démographiques, politiques ou écologiques. En même temps, des essayistes comme Elisabeth Badinter dénoncent une pression croissante pesant sur les femmes pour les inciter à devenir mères et une renaturalisation de la maternité. Par ailleurs, l'expérience de la maternité elle-même se transforme et se diversifie. Ainsi, des mouvements qui ont longtemps rejeté l'institution de la famille ont récemment demandé d'y avoir accès. On le voit, la maternité et le refus de celle-ci sont au cœur de nombreux débats contemporains. Ce numéro de Sextant interroge ces mouvements et ces débats autour de la non-maternité en définit les contours et interroge le passé afin de mieux cerner les questionnements actuels. Que signifie ne pas être mère aujourd'hui ? Quels jalons et événements ont rendu ce choix possible dans la société d'aujourd'hui ?

Désir et refus de maternité Chantal Hania Mimoun, 1977

Whispering the Strategies of Language: An Mental Journey through **Pas Denfant Ditelle Les Refus De La Materniteacute**

In a digitally-driven world wherever screens reign great and instant transmission drowns out the subtleties of language, the profound secrets and mental subtleties concealed within phrases frequently go unheard.
