Covering maternal and neonatal, pediatric, geriatric, mental health, and community nursing, Foundations of Nursing 6th Edition includes all of the essential LPN/LVN content you need. Companion CD includes animations and audio clips depicting physiologic processes, physical assessment, video clips, an English/Spanish glossary with definitions and audio pronunciations, an anatomy coloring book, and a fluid and electrolytes tutorial. The consistent, logical framework of the nursing process connects specific disorders to patient care. A mathematics review chapter provides a complete review of basic arithmetic skills and practice in drug dosage calculation to ensure safe medication administration. Safety Alert boxes help you implement The Joint Commission's safety guidelines in all settings with considerations for special populations. Nursing Diagnosis boxes, screened and highlighted in the text, include nursing diagnoses for specific disorders paired with the appropriate nursing interventions. More than 100 skills in a step-by-step format with full-color illustrations present clearly defined nursing actions with rationales for the skills and techniques you'll use in practice. Medication tables are meticulously detailed and provide quick access to action, dosage, precautions, and nursing considerations for commonly used drugs. Nursing Care Plans presented in a case study format emphasize patient goals and outcomes and end with Critical Thinking Questions to develop your clinical decision-making skills. Coordinated Care boxes emphasize parameters for prioritizing tasks as well as assigning tasks to and supervising unlicensed assistive personnel. Patient Teaching boxes and Family Teaching boxes include post-hospital discharge guidelines and disease prevention instructions with a strong focus on three-way communication among the nurse, patient, and family members. Life Span Considerations for Older Adults boxes provide age-specific information for the care of the aging population, which is often the primary focus of the LPN/LVN nurse. Home Care Considerations boxes discuss the issues facing patients and caregivers in the home health care setting. Health Promotion boxes provide key information on staying healthy and preventing disease with tips on wellness from Healthy People 2010. Cultural Considerations boxes discuss how to address the health needs of a culturally diverse patient population when planning care. Enhanced focus on the NCLEX Examination.

PROFESSIONALISM Mrs. Manisha Srivastava, Mr. Anil Singh Bhadouria, Ms. Sudha Gautam, Ms. Vinaya Kumary, T, Lt Col (Dr) Regina. P. F, 2023-08-07 India a prominent country in the Asian continent has a long history of nursing care Basically one can understand that the approach to nursing profession has been improving as many young people take up the education in nursing profession as someone gets join in any other graduate program Florence Nightingale founder of modern nursing was the first woman to have great influence over nursing in India and had a close knowledge of Indian conditions especially in the army The literature says that in 1865 Nightingale drew up some detailed Suggestions on a

system of nursing for hospitals in India Graduates were sent out from the Nightingale School of Nurses of St Thomas Hospital England to start similar schools in India St Stephen s Hospital Delhi was the first one to begin training the Indian women as nurses in 1867 Quality of education and clinical exposure to nursing students are also under constant updates in the country The reason for this change is that majority of nurses trained in India tend to move to countries abroad especially countries like Australia Canada USA UK and Europe too Better pay and working conditions are attracting many Indian nurses are also started moving towards the west specially countries like Germany Italy Austria Netherlands etc There are also changes in the formation of nurses in India that they are also upgrading the level of nursing education into a bachelor s degree As per the Indian nursing council notification from 2021 onward nurses will only be trained with a bachelor s degree B Sc in nursing Individuals need care and attention as long as they live On the one hand demographically population and human life expectancy are increasing and the care systems demands a lot of challenges and opportunities On the other hand experiments and the efforts to overcome diseases continue From the experiences from India it is interesting to know that many young minds take up nursing studies when compare to paramedical courses Nursing course is still the most likely job accelerated program in India among all other medical allied courses other than the Bachelor of Medicine program
