Committee on Astronomy and Astrophysics CAA is tasked with monitoring the progress of the survey's recommended priorities. The CAA met in conjunction with Space Science Week 2017 in Washington D C on March 28-30, 2017. This was the first meeting at which the CAA could produce a report and in advance of that meeting the CAA received a question from NASA about an upcoming Small Explorer SMEX mission call. This report addresses whether there may or may not be sufficient compelling science motivations for a SMEX sized mission to justify a SMEX Announcement of Opportunity AO in 2018 or 2019 as is currently planned.

**The Insider's Guide to the Colleges, 2014** Yale Daily News Staff, 2013-07-09. The Straight Talking Student's Guide to the Best Colleges in the US. With this new edition The Insider's Guide to the Colleges has been for 40 years the most relied upon resource for high school students looking for honest reports on USA colleges from their fellow students. Having interviewed hundreds of their peers on more than 330 university and college campuses and by getting the inside scoop on everything from the nightlife and professors to the newest dorms and wildest student organizations the reporters at the Yale Daily News have created the most candid college choice guide available. In addition to the well rounded profiles this edition has been updated to include Essential statistics for every school from acceptance rates to popular majors. A College Finder to help students pick the perfect school. FYI sections with student opinions and outrageous off the cuff advice to further help in college selection. The Insider's Guide to the Colleges cuts through the glossy college brochures to get to the things that matter most to students trying to select a college and by staying on top of trends it gives those students and their parents the straightforward information they need to choose the school that's right for them.

**Developing Culturally and Developmentally Appropriate Early STEM Learning Experiences** Philip Hui Li, Anne Forbes, Weipeng Yang, 2023-12-11. This book informs best practice for enhancing young children's STEM learning experiences in formal settings such as preschool environments and less formal settings such as home environments. It is the first collection of multidisciplinary and multinational studies on early STEM programs worldwide and presents diverse authentic and current STEM relevant scenarios that address two fundamental problems: where are we in early STEM education and where shall we go. The book explores factors that influence young learners' abilities to make informed choices in authentic problem-based STEM relevant scenarios and how those abilities have been identified, documented, and enhanced. Chapters address topics related to curriculum and pedagogy, teacher education and professional development, family environment and inclusive education from a variety of international settings including Australia, Germany, Hong Kong, Mainland China, Singapore, and the United States. Each chapter is based around a research project and describes relevant background information from the research literature, details of how the study was designed, findings from the study, and discussion as to what the findings mean for practical implementation. *Developing Culturally and Developmentally Appropriate Early STEM Learning Experiences* will be a key resource for researchers and practitioners of early childhood education and care, STEM education, educational psychology, educational research, and educational technology. This book was originally published as a
