

PHYSICS FORMULAS

LIGHT

Light is a form of energy that produces in us the sensation of sight.

Reflection of light is the phenomenon of bouncing back of light in the same medium on striking the surface of any object.

The two laws of reflection are :

the incident ray, the reflected ray and the normal (at the point of incidence), all lie in the same plane.

the angle of reflection (r) is always equal to the angle of incidence (i)

$$\angle r = \angle i$$

In a plane mirror, the image of a real object is always

(i) virtual,

(ii) erect

(iii) of same size as the object.

(iv) as far behind the mirror as the object is in front of the mirror.

(v) laterally inverted.

Absolute refractive index(n) of a medium is the ratio of speed of light in vacuum or air(c) to the speed of light in the medium(v) i.e.

$$n = \frac{c}{v}$$

Refraction of light is the phenomenon of change in the path of light in going from one medium to another.

In going from a rarer to a denser medium, the ray of light bends towards normal and in going from a denser to a rarer medium, the ray of light bends away from normal.

Snell's law of refraction,

$$\frac{\sin i}{\sin r} = \frac{n_2}{n_1} = {}^1n_2$$

No refraction occurs, when

(i) it is incident normally on a boundary,

(ii) refractive indices of the two media in contact are equal.

$$n_{21} = \frac{n_2}{n_1} = \frac{v_1}{v_2}$$

$$\text{Lens formula : } \frac{1}{v} - \frac{1}{u} = \frac{1}{f}$$

New Cartesian Sign Convention for spherical lenses:

(i) All distances are measured from optical centre C of the lens.

(ii) The distances measured in the direction of incidence of light are taken as positive and vice-versa.

(iii) All heights above the principal axis of the lens are taken as positive and vice versa.

The linear magnification produced by a lens is

$$m = \frac{h'}{h} = \frac{v}{u}$$

Power of the combination of lenses

$$P = P_1 + P_2 + P_3 \dots$$

According to New Cartesian Sign Convention, for spherical mirror,

(i) All distances are measured from the pole of the spherical mirror.

(ii) The distances measured in the direction of incidence of light are taken as positive and vice-versa.

(iii) The heights above the principal axis of the mirror are taken as positive and vice-versa.

In spherical mirror, focal length (f) = $\frac{\text{Radius of curvature (R)}}{2}$

$$\text{Mirror formula: } \frac{1}{v} + \frac{1}{u} = \frac{1}{f}$$

Linear magnification produced by a spherical mirror is

$$m = \frac{-v}{u} = \frac{\text{size of image (h}_2\text{)}}{\text{size of object (h}_1\text{)}}$$

For a convex mirror, m is +ve and less than one, as the image formed is virtual, erect and shorter than the object.

For a concave mirror, m is +ve when image formed is virtual and m is -ve, when image formed is real.

FOCAL LENGTH:

Physics Chapter Notes Introduction

Physics Chapter Notes Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Physics Chapter Notes Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Physics Chapter Notes : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Physics Chapter Notes : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Physics Chapter Notes Offers a diverse range of free eBooks across various genres. Physics Chapter Notes Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Physics Chapter Notes Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Physics Chapter Notes, especially related to Physics Chapter Notes, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Physics Chapter Notes, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Physics Chapter Notes books or magazines might include. Look for these in online stores or libraries. Remember that while Physics Chapter Notes, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Physics Chapter Notes eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Physics Chapter Notes full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Physics Chapter Notes eBooks, including some popular titles.

FAQs About Physics Chapter Notes Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading

preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Physics Chapter Notes is one of the best book in our library for free trial. We provide copy of Physics Chapter Notes in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Physics Chapter Notes. Where to download Physics Chapter Notes online for free? Are you looking for Physics Chapter Notes PDF? This is definitely going to save you time and cash in something you should think about.
