

The Influence of Same-Sex Marriage on the Understanding of Same-Sex Relationships

Pamela J. Lannutti, PhD

Boston College

ABSTRACT. This study examines the ways in which legally recognized same-sex marriage affects the understanding of same-sex romantic relationships for lesbian, gay, bisexual and transgendered (LGBT) individuals. Participants ($N = 288$) responded to an open-ended Web-based survey asking them to describe how legally recognized same-sex marriage influenced their view of their own romantic relationship or romantic relationships in general. Results indicate that legally recognized same-sex marriage impacted participants' understanding of romantic relationships by making existing relationships seem more real and by serving as a tool through which participants realized their desires for ideal potential partner and relationship characteristics. The results suggest that legally recognized same-sex marriage is seen as both beneficial and challenging for same-sex couples. doi:10.1300/J082v53n03_08 [Article copies available for a fee from The Haworth Document Delivery Service: 1-800-HAWORTH. Same Sex Marriage Research Paper:

Same-Sex Couples before National, Supranational and International Jurisdictions Daniele Gallo, Luca Paladini, Pietro Pustorino, 2013-12-02 The present volume focuses on the jurisprudence of national supranational and international jurisdictions and quasi jurisdictions as regards the legal status of same sex couples Its aim is to explore the content rationale functioning and potential of the different jurisdictions reasonings and their contribution to the strengthening of LGBTI rights and duties As a consequence the book tries to convey the complexities and controversies that derive from the judicial recognition of same sex couples across the world taking always into account the relationship of the judiciary with the executive and the legislature and the related problems of legitimacy and democracy The volume deals with this issue and considers it as a crucial test for modern democracies and contemporary societies

The Political Economy of Same-Sex Marriage Bronwyn Winter, 2020-12-29 Same sex marriage is now legal in twenty nine countries and the subject of continued debate around the world The Political Economy of Same Sex Marriage A Feminist Critique considers this debate from a political economy perspective Rather than engaging directly in the now well rehearsed social movement and academic for and against debates this book focuses on processes of institutionalization of same sex marriage and so called rainbow families within neo liberal capitalist democracies It examines how states and markets appropriate same sex marriage and family to enhance their own political and symbolic capital consolidating power and profit within existing systems of gendered and raced socioeconomic stratification Taking a radical feminist heterodox qualitative and intersectional approach this book investigates the political economy of same sex marriage across three axes same sex marriage as institution same sex marriage and the market and the political economy of the rainbow family The examination of case studies from different countries and regions enables a comparative analysis that foregrounds cultural political and economic path dependencies while at the same time highlighting a number of striking commonalities In all the countries discussed in this book and in most respects same sex marriage has been integrated almost seamlessly into a mainstream malestream political economy of marriage and family and its translation into added market and productive value The Political Economy of Same Sex Marriage A Feminist Critique will be of use to researchers and students alike and indeed to all those who are curious about the mainstreaming of homosexuality within twenty first century capitalist democracies

Peopling the Constitution John E. Finn, 2014-03-24 The U S

Constitution begins with the soaring words We the People but we the people have little to do with the document as most of us have come to know it When most people think of the constitution they think of it as a legal instrument the province of judges and lawyers who alone possess the expertise and knowledge necessary to discern its elusive and complex meaning This book outlines a very different view of the Constitution as a moral and philosophical statement about who we are as a nation This Civic Constitution constitutes us as a civic body politic transforming the people into a singular political entity Juxtaposing this view with the legal model the Juridic Constitution John E Finn offers a comprehensive account of the Civic Constitution as a public affirmation of the shared principles of national self identity and as a particular vision of political community in which we the people play a significant and ongoing role in achieving a constitutional way of life The Civic Constitution is the constitution of dialogical engagement of contested meanings of political principles of education of conversation Peopling the Constitution seeks nothing less than a new interpretation of the American constitutional project in an effort to revive a robust understanding of citizenship It considers the entire constitutional project from its founding and maintenance to its failure with insights into topics ranging from the practice of deliberative democracy and the meaning of citizenship to constitutional fidelity civic virtue the separation of powers federalism and constitutional interpretation The Civic Constitution in Finn s telling is primarily a political project requiring an active engaged and most importantly constitutionally educated citizenry committed to the civic virtues of civility and tending When we as citizens are unwilling or unable to tend to and sustain the Constitution and when constitutional questions reduce to legal questions and obscure civic interests constitutional rot results And in post 9 11 America Finn argues constitutional rot has begun to set in With its multi dimensional vision of constitutional governance Finn s book stands as a corrective to accounts that locate the Constitution in and conceive it essentially as a legal instrument making a powerful and impassioned argument for restoring the people to their rightful place in the politics and practice of the Constitution

Discrimination against homosexual men with different marital status in Germany's labour market Nadine Trieschmann, 2020-07-09 Seminar paper from the year 2018 in the subject Business economics Business Ethics Corporate Ethics grade 1.7 University of Cologne course Bachelorseminar language English abstract The research question is if homosexual married men are favoured in the hiring process over homosexual single men in the German labour market and secondly if this marriage effect is stronger for homosexual men than for heterosexual men To be able to answer this question a Correspondence Test has to be conducted Four fictional applications of males who vary in their sexual orientation heterosexual versus homosexual and marital status married versus single will be sent to vacancies in the sixteen German provincial capitals and sixteen rural regions in Germany Since the first of October 2017 same sex couples in Germany have the right to marry Until this point in time homosexual couples could only enter into a registered partnership with the same duties but not the same rights as heterosexual married couples This significant development in law may introduce new problems and challenges Ann Ferguson 2007 for one criticises that homosexual marriage could shift social hierarchies which in return creates a new differentiation between homosexual people who live in a single household and the more socially accepted married homosexual couples Butler 2004 argued that homosexual marriage could be understood as a way to push homosexuals into a normalized lifestyle for example marriage a monogamous family life and also successful careers which could increase social acceptance In this sense this paper is building on the work by Weichselbaumer 2013 who examined the difference in economic outcome between single lesbians and lesbians in a registered partnership in Munich and Berlin She found no differences between single and partnered lesbians in Munich both groups are treated unfavourably in comparison to heterosexual women In Berlin she found out that there is no discrimination based on sexual orientation But some studies showed that negative attitudes towards homosexual men are more present than towards lesbians and that employers may have preferences for male employees with one steady married partner If this is the case homosexual men may benefit more from signalling that they live in a marriage than lesbian women would Therefore this paper sets forth the study of Weichselbaumer 2013 by focusing on homosexual men instead of lesbians and on the other hand by measuring the effect after the legislation of same sex marriage in Germany *LGBTQ Divorce and Relationship Dissolution* Abbie E.
