

COURT OBSERVATION

Every person must have his day in court, whether to prosecute and defend himself as to any disputes that may arise. This is a right that is guaranteed by the constitution and such right must be accorded to all.

In a court session that I attended, the physical appearance of the court is similar to other courts. When I first entered a court room, I expected it to be like the big courtrooms I see on TV. I was wrong. It was an average room that is quite unorganized with a lot of boxes where place at every corners probably because of the little space every court room has.

As I entered the court room I sat on the back, where the public sits, facing the judge bench at the other end of the room. One of the obvious truth about court proceedings is that no judges and lawyers are time-observant. Notice of hearing particularly state the time for the hearing to start but such was never followed by lawyers and judges. It can be easily forgiven for they are quite busy people.

One of the first things I noticed was that the atmosphere was somewhat similar to television courtrooms but that setting seemed more relaxed somehow and quieter. I was surprised how many visitors and observers there were, and was equally taken aback by the relative informality of the interactions between judge and attorney. I have seen in televisions how judges gets easily mad when lawyers are unprepared, when the spectators and the parties to a case are noisy, and when there is court impropriety. Surprisingly, the judges where very understanding. Although there was a judge, in one of my court observations that is very particular of proper court decorum. But such was one among the thousands.

It cannot be denied that I was disappointed on the court proceedings that I had witness. I always thought that lawyering is very tedious for I have to prepare a lot of pleadings, search and study to be able to defend and present effectively the case in court. It is a night of "burning candles" when you need to appear in court the next day. But such is not the reality among lawyers when appearing in court. A lot of lawyers are late, unprepared and worst missed out on court hearings successively. In fact, a lawyer was reprimanded and fined by a judge for not appearing thrice in court hearings which place the client's case in jeopardy even if such client is paying the lawyer generously.

The first arraignment that I ever attended, I noticed that after the first reading in english, the clerk of court relayed the same to the accused and translating it in Bisaya in a less formal and more conversational manner. I believe it is the most important part of court proceedings because it allows the

Medical Malpractice: the Patient Versus the Physician United States. Congress. Senate. Committee on Government Operations. Subcommittee on Executive Reorganization, 1969 Tracing the Impact of First-Year Writing Laura

Wilder, 2024-11-15 *Tracing the Impact of First Year Writing* presents the results of a large scale longitudinal study of college writers that explores the impact of a required first year writing course with a comparative approach not previously available. Over five years Laura Wilder conducted 143 interviews with and collected 774 pages of writing from 58 students half of whom had taken a new first year writing course and half who had not. Wilder found that while in many ways the experiences of both groups are comparable demonstrating how students receive valuable educations in rhetoric and writing from a variety of sources beyond a first year writing course students who took the first year writing course were much more likely to identify as writers. This identification supported students use of writing in powerfully generative and knowledge building ways that they carried with them long after the course into other appropriate contexts. In contrast to previous longitudinal studies of college writers undertaken at institutions with high prestige and resources *Tracing the Impact of First Year Writing* explores the role of writing at a regional public university and documents how students experiences with writing can be highly divergent across the curriculum and unequal across campuses. Additionally this book includes the voices of students who do not identify as capable writers and have strongly negative emotional reactions to writing and writing instruction and adds empirical support to innovative calls in the field to transform the first year writing course into one that inspires students to reflectively consider writing itself.
