standards help in reducing medication errors and in providing safe patient care *Standardizing Medication Labels*
Institute of Medicine, Board on Population Health and Public Health Practice, Roundtable on Health Literacy, 2008-05-15
Medications are an important component of health care but each year their misuse results in over a million adverse drug events that lead to office and emergency room visits as well as hospitalizations and in some cases death As a patient's most tangible source of information about what drug has been prescribed and how that drug is to be taken the label on a container of prescription medication is a crucial line of defense against such medication safety problems yet almost half of all patients misunderstand label instructions about how to take their medicines *Standardizing Medication Labels Confusing Patients Less* is the summary of a workshop held in Washington D C on October 12 2007 that was organized to examine what is known about how medication container labeling affects patient safety and to discuss approaches to addressing identified problems
