This textbook is written in line with the Council of International Neonatal Nurses Inc COINN vision for global unity for neonatal nursing. The core values and goals of COINN are based on excellence and advocacy for high quality newborn care as well as respecting diversity by integrating cultural norms and values among the care of newborns and their families. The book promotes neonatal nursing as a global speciality through evidence research and education of neonatal nurses and offers key examples of the millennium goals and global outcomes as well as variations in outcomes for babies. The first part focuses on global perspectives of neonatal nursing from different continents aligning with the World Health Organizations global regions: The Americas (USA, Canada and South America), Western Pacific region (Australia and New Zealand), European region (UK and Europe), African region, South East Asia and Eastern Mediterranean region. For each region, education and competencies, challenges and opportunities, research and evidence based practice (EBP) as well as practice regulations are described. The second part elaborates on key topics for neonatal nursing across the globe such as the continuity of neonatal care in the community, patient and family centered care in neonatal settings, sleep and brain development, the fundamental care needs of the neonate and family, and global perspectives on hypothermia, hypoglycaemia and hypoxia. Written in a formal academic but reader style using key literature and evidence, this textbook enables an understanding from a large audience with academic levels and experience, both staff and students, bedside nurses, advanced practice nurses, midwives and allied professionals. In addition, first person story based reflective narrative are interspersed throughout the book to capture the perspectives of nurses, staff and parents in the form of vignettes. This textbook is aimed at neonatal nurses across the world as well as current and aspiring students in this field.

Baragwanath Hospital, Soweto Simonne

Horwitz,2013-09-01 Baragwanath Hospital Soweto illustrates how this rapidly growing underfunded but surprisingly effective institution found the niche that allowed it to exist to provide medical care to a massive patient body and at times even to flourish in the apartheid state The book offers new ways of exploring the history of apartheid apartheid medicine and health care The long history of Chris Hani Baragwanath Hospital its full current name or Bara as it s popularly known has been shaped by a complex set of conditions Established in the early 1940s Bara stands on land purchased by the Cornish immigrant John Albert Baragwanath in the late nineteenth century He set up a refreshment post trading store and hotel on the site in what is now Soweto which was a one day journey by ox wagon from Johannesburg The hotel became affectionately known as Baragwanath Place the surname is Welsh from bara meaning bread and gwenith meaning wheat The land was then bought by Corner House Mining Group and later taken over by Crown Mines Ltd but was never mined The British government bought the land in the early 1940s to build a military hospital but by 1947 Baragwanath ceased to operate as a military hospital and under the auspices of the Transvaal Provincial Administration a civilian hospital was opened with 480 beds Patients were transferred from the non European wing of the Johannesburg General Hospital in the white area of Johannesburg Links were immediately forged with the University of the Witwatersrand and Bara would over time become one of its largest teaching centres This link brought medical students and their teachers into direct contact with apartheid in the

medical sphere This book will contribute to studies of the history of apartheid that have begun to provide a more nuanced account of its workings The history of Baragwanath and of the doctors and nurses who worked there tells us much about apartheid ideology and practice as well as resistance to it in the realm of health care
