Army of Evil Adrian Weale, 2013-09-03 In Nazi Germany they were called the Schutzstaffeln The world would know them as the dreaded SS the most loyal and ruthless enforcers of the Third Reich It began as a small squad of political thugs Yet by the end of 1935 the SS had taken control of all police and internal security duties in Germany ranging from local village gendarmes all the way up to the secret political police and the Gestapo Eventually its ranks would grow to rival even Germany's regular armed forces the Wehrmacht Going beyond the myths and characterizations *Army of Evil* reveals the reality of the SS as a cadre of unwavering political fanatics and power seeking opportunists who slavishly followed an ideology that disdained traditional morality an ideology that they were prepared to implement to the utmost murderous extreme which ultimately resulted in the Holocaust This is a definitive historical narrative of the birth legacy and demise of one of the most feared political and military organizations ever known and of those twisted cruel men who were responsible for one of the most appalling crimes against humanity in history INCLUDES RARE PHOTOGRAPHS *South Africa and United Nations Peacekeeping Offensive Operations* Antonio Garcia, 2018-08-17 The creation of the Force Intervention Brigade FIB as the sharp tactical edge of the United Nations Stabilisation Mission in the Democratic Republic of the Congo MONUSCO tasked with the neutralising of armed groups was a watershed moment in the history of modern peace missions What was more significant was that sub Saharan national leaders were instrumental in the creation of the FIB South Africa Tanzania and Malawi but lacked the resources to deploy such a force and consequently the brigade was deployed under the banner of the UN With the legacy of an African Renaissance and its role in the conception of the FIB South Africa remains a critical player in international peace and security in sub Saharan Africa and therefore holds a key strategic role in achieving the FIBs objectives This comes at a critical time where blue helmets are increasingly exposed to complex and challenging security contexts The aim of this work is to provide a conceptual model for South African military future operations and UN offensive peacekeeping operations In this undertaking a layer of military and Clausewitzian theory is added to offensive peacekeeping operations Furthermore there are sections on operational constructs capstone and operating concepts doctrine and structural elements as well a section on mine action This book contributes towards an understanding of the nature of modern strategy through the lens of UN offensive peacekeeping operations and provides insights into operational challenges
