Sandf Forms Of 2015 2016:

South Africa's Post-Apartheid Military Lindy Heineken, 2020-01-01 This timely book examines how the South African National Defence Force has adapted to the country's new security political and social environment since 1994. In South Africa's changed political state, how has civilian control of the military been implemented and what does this mean for defence in a democracy? This book presents an overview of the security environment, how the mission focus of the military has changed and the implications for force procurement, force preparation, force employment and force sustainability. The author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force, the effect of affirmative action on meritocracy, recruitment and retention, military veterans looking at the difficulties they face in reintegrating back into society and finding gainful employment, gender equality and mainstreaming, the rise of military unions and why a confrontational instead of a more corporatist approach to labour relations has emerged, HIV/AIDS and the consequences this holds for the military in terms of its operational effectiveness. In closing, the author highlights key events that have caused the SANDF to become lost in transition and transformation, spelling out some lessons learned. The conclusions she draws are pertinent for the future of defence security and civil-military relations of countries around the world.

EuroKarst 2016, Neuchâtel Philippe Renard, Catherine Bertrand, 2017-01-03 This book presents the latest advances in the field of karst hydrogeology and carbonate reservoirs. These include but are not limited to: geomorphology of karst flow and solute transport in karst; innovative metrology; modelling speleogenesis and geology of carbonate reservoirs; deep reservoir exploration and production; water management and protection in karst environments; contaminant migration and chemical behavior; hydrochemistry and regional aquifer studies. EuroKarst offers a platform for professional exchanges between field practitioners and academic researchers. It is the European biennial conference on the hydrogeology of karst and carbonate reservoirs. It is organized every two years by the Universities of Neuchâtel (Switzerland), Besançon (France) and Malaga (Spain).

Daily Graphic Ransford Tetteh, 2014-09-10 The Economics of the Global Defence Industry Keith Hartley, Jean Belin, 2019-11-08 This book makes an original contribution to our knowledge of the world's major defence industries. Experts from a wide range of different countries from the major economies of North America and Western Europe to developing economies and some unique cases such as China, India, Singapore, South Africa and North Korea describe and analyse the structure, conduct and performance of the defence industry in that country. Each chapter opens with statistics on a key nation's defence spending, its spending on defence R & D and on procurement over the period 1980 to 2017, allowing for an analysis of industry changes following the end of the Cold War. After the facts of each industry, the authors describe and analyse the structure, conduct and performance of the industry. The analysis of structure includes discussions of entry conditions, domestic monopoly/oligopoly structures and opportunities for competition. The section on conduct analyses price/non-price competition, including private and state-funded R & D and performance, incorporates profitability, imports and exports.

together with spin offs and technical progress The conclusion explores the future prospects for each nation s defence industry Do defence industries have a future What might the future defence firm and industry look like in 50 years time This volume is a vital resource and reference for anyone interested in defence economics industrial economics international relations strategic studies and public procurement *The Economics of Defense Industry* Thomas-Durell Young,2023-10-17 This book on the economics of defence industry assesses a series of historical and contemporary case studies that consistently demonstrate the need for governments to recognise and thereafter factor the financial needs of a narrow industrial sector that is capital intensive technologically advanced and that requires a highly skilled labour force Since the end of the cold war Western governments have systematically reduced financial support to their domestic defence industry and have seemingly ignored planning and funding industrial mobilisation In all cases government policy has been to encourage industries to consolidate capacity to become financially viable in a sector that has seen diminished demand The 2022 Russian invasion of Ukraine has caused Western governments to reassess their previous assumptions Efforts to increase industrial capacity have been met with the iron laws of economics whereby businesses need to show return on investments The chapters in this volume posit that efforts to rationalise industrial capacity and innovation to meet short term financial efficiencies inevitably results in limited expensive and long delays in increased production in times of international crisis This book serves as an essential guide for academics researchers and students interested in defence economics industrial economics international relations and industrial policy The chapters in this book were originally published in various issues of Defense Security Analysis

Dynamic Soil-Structure Interaction for Sustainable Infrastructures Deepankar Choudhury,Khalid M. El-Zahaby,Izzat Idriss,2018-10-27 This volume focuses on the role of soil structure interaction and soil dynamics It discusses case studies as well as physical and numerical models of geo structures It covers Soil Structure Interaction under static and dynamic loads dynamic behavior of soils and soil liquefaction It is hoped that this volume will contribute to further advance the state of the art for the next generation infrastructure as a key to creating a sustainable community affecting our future well being as well as the economic climate The volume is based on the best contributions to the 2nd GeoMEast International Congress and Exhibition on Sustainable Civil Infrastructures Egypt 2018 The official international congress of the Soil Structure Interaction Group in Egypt SSIGE

Developments in Earthquake Geotechnics Susumu Iai,2017-10-17 This book provides a timely review and summary of the recent advances in state of the art earthquake geotechnics The earthquake disasters in Japan and New Zealand in 2011 prompted the urgent need for the state of the art earthquake geotechnics to be put into practice for disaster mitigation By reviewing the developments in earthquake geotechnics over more than half a century this unique book enables readers to obtain solid grasp of this discipline It is based on contributions from 18 leading international experts who met in Kyoto in June 2016 to discuss a range of issues related to the developments of earthquake geotechnics It comprehensively discusses various areas

of earthquake geotechnics including performance based seismic design the evolution of geotechnical seismic response analysis from 1964 2015 countermeasures against liquefaction solutions for nuclear power plant disasters the tsunami caused inundation of the Tokyo metropolitan area and a series of state of the art effective stress analyses of case histories from the 2011 East Japan Earthquake The book is of interest to advanced level researchers and practicing engineers in the field of earthquake geotechnics *Policing and Boundaries in a Violent Society* Guy Lamb,2022-01-31 This book explores how social and territorial boundaries have influenced the approaches and practices of the South Africa Police Service SAPS By means of a historical analysis of South Africa this book introduces a new concept police frontierism which illuminates the nature of the relationships between the police policing and boundaries and can potentially be used for future case study research Drawing on a wealth of research this book examines how social and territorial boundaries strongly influenced police practices and behaviour in South Africa and how social delineations amplify and distort existing police prejudices against those communities on the other side of the boundary Focusing on cases of high density police operations public order policing and the recent policing of the COVID 19 lockdown this book argues that poor economic conditions combined with an increased militarisation of the SAPS and a decline in public trust in the police will result in boundaries continuing to fundamentally inform police work in South Africa This book will be of interest to scholars and students interested in policing in post colonial societies characterised by high levels of violence as well as police work and police militarization Annual Report South Africa. Department of Defence,2016 **Regional Powers and Contested Leadership** Hannes Ebert,Daniel Flesher,2018-03-19 When do rising powers fail to establish legitimate regional leadership and instead face contestation by their regional challengers This book investigates how and why the BRICS Brazil Russia India China and South Africa project leadership in South America post Soviet Eurasia South and Southeast Asia and sub Saharan Africa respectively and in what ways their main regional challengers respond Based on a systematic conceptualization of the types and drivers of leadership and contestation the authors assess the impact of the rise of regional powers on weaker states security sovereignty and status as well as the consequences of contestation for regional economic development and stability and the regional powers bid for greater voice in global governance By illuminating the sources and effects of power politics in five regions that are increasingly pivotal for the emerging world order the volume offers a global comparative analysis of contemporary regional contested leadership that will interest scholars and students of international affairs foreign policy and area studies

Fundamentals of Soil Behavior James K. Mitchell,Kenichi Soga,Catherine O'Sullivan,2025-08-12 Authoritative and generously illustrated resource covering the many properties of soil and its behavior needed for addressing geotechnical and geoenvironmental engineering projects and problems The Fourth Edition of Fundamentals of Soil Behavior has been thoroughly updated to provide the latest information on the physical properties of soil and the fundamentals of its behavior with hundreds of tables and graphs illustrating correlations among composition classification state and static and dynamic

properties Overall each topic is addressed in a micro to macro sequence considering behaviors at the atomic and or particle scales to develop understanding of soil properties and behaviors at the macro scale which is relevant to engineering practice This Fourth Edition includes two new chapters on special features of soil behavior and temperature dependent soil behavior Other chapters have been substantially updated to include the latest developments in imaging technology and analysis numerical simulations that have advanced research on the complexities of soil behavior and recent experimental data The content has been reviewed consolidated and reorganized to more effectively communicate key information The text features end of chapter questions and problems to aid in seamless reader comprehension and information retention Updated by true thought leaders in the field the Fourth Edition of Fundamentals of Soil Behavior includes detailed information on Soil formation covering the earth s crust the geologic cycle rock and mineral stability weathering and origin of clay minerals and genesis Soil mineralogy covering atomic structure interatomic bonding secondary bonds crystal notation and clay mineral characteristics Fundamental engineering characterization of soil covering granular soils and clay minerals Observing and quantifying soil fabric covering qualitative and quantitative assessment of soil fabric Transport of heat fluid and electrical current The fundamentals of volume change deformation and strength properties of soils The impact of time and temperature changes on soil behavior Providing an understanding of soil behavior a fundamental requisite to a wide variety of engineering applications including foundation design and construction earthwork construction and geotechnical engineering Fundamentals of Soil Behavior is an essential learning resource for geotechnical and geoenvironmental engineers geologists geophysicists and students studying geotechnical engineering and granular materials

Researching the Military Helena Carreiras,Celso Castro,Sabina Frederic,2016-03-02 Researching the Military focuses on the experiences of researchers who study the military around the world It explores the historical social institutional and personal factors that frame research and scrutinize the way knowledge in this area impacts society and policy More than merely analyzing research experiences yet necessarily including them it is also about the experiences of researchers their position with regard to the object of their studies the institutional context where they work and the way their research impacts the academic and policy making fields in the respective countries The common theme to the various chapters is reflexivity a conscious effort at addressing the conditions of research and the position of the researcher and the research participants in that interface By collecting diverse experiences of researchers from across the world this volume aims to enhance reflexivity in the field of military studies and to encourage the exchange of knowledge between the academic field and the military arena This book will be of much interest to students of military studies research methods sociology social anthropology and security studies in general
