IMPORTANT SAFETY INSTRUCTIONS

- Read these instructions.
- Read the instructions.
- Read the instructions.
- Follow the instructions.
- Do not use this appliance near water.
- Clean only with dry cloth.
- Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
- Do not install near any heat sources such as radiators, heat registers, stoves, or other appliances including amplifiers that produce heat.
- Do not obstruct the safety purpose of the potential fire grounding-type plug. A potential plug has two blades with one wider than the other. A grounding-type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit fully into your outlet, consult an electrician for replacement of the obsolete outlet.
- Protect the power cord from being walked on or pinched particularly at the power connection, and the point where they exit from the appliance.
- Only use accessories/consumables specified by the manufacturer.
- Use only with the cord, stand, input, bracket, or table specified by the manufacturer, or with the accessories. Other use is not recommended. Caution when moving the combination to avoid injury from tip-over.
- Stop the operation during lightning storms or when unused for long periods of time.
- Repair or servicing is not intended service personnel. Servicing is required when the appliance has been damaged or in any case, such as power supply cord or plug is damaged, liquid has been spilled or objects have fallen into the appliance, the appliance has been exposed to rain or moisture, does not operate normally, or has been dropped.

- If an outside antenna is connected to the television equipment, be sure the antenna system is grounded in accordance with the U.S. National Electrical Code (NEC) and the local electrical code. The NEC provides information with respect to proper grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna discharge unit, type of grounding conductors, location of antenna discharge unit, and connection to grounding electrodes, and requirements for the grounding system.
- An outside antenna system should not be located in the vicinity of overhead power lines or other electrical light or power circuits, or where it can fall into such power lines or circuits. When installing an outside antenna system, extreme care should be taken to keep from touching such power lines or circuits as contact with them might be fatal.

DIAGRAM OF ANTENNA CONNECTIONS ACCORDING TO NATIONAL ELECTRICAL CODE, ARTICLE 214

*Note to CATV system installer: This reminder is provided to let the CATV system installer's attention to Article 820-40 of the NEC that provides guidelines for proper grounding and, in particular, specifies that the cable ground lead be connected to the grounding system of the building as close to the point of cable entry as practical.

- Wall or Ceiling Mounting—The product should be mounted to a wall or ceiling only as recommended by the manufacturer.
- Appropriate caution should be exercised in drilling and/or attaching the product to walls, ceiling, or floors. Do not drill into walls.
- When the WARNING label is used on the product device, the document device shall remain readily operable.

FCC INFORMATION

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. It is the responsibility of the user to ensure that this equipment does not cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on. The user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CAUTION: FCC Regulations state that improper modifications or unauthorized changes to this unit may void the user's authority to operate the unit.

This equipment is a Class B or device included electrical appliance. It has been designed in such a way that it does not require a safety connection to electrical power.
