Jones, 2021-11-12 The Influence and Predictability of Socioeconomic Factors of the 2018 PARCC Middle School ELA Scores in New Jersey. By Dr. Charlene F. Jones. This quantitative research, *The Influence and Predictability of Socioeconomic Factors of the 2018 PARCC Middle School ELA Scores in New Jersey*, examines the predictive power of socioeconomic parental and school district factors on student academic achievement. The combined influence of parent education with a bachelor's degree or higher and free and reduced price lunch factors demonstrate the highest statistical significance for predictability in this study. All fundamental variables utilized support a greater discussion on how we, as parents and educators, can influence standardized test results and ensure local education policies and recommendations therein are research-based and implemented effectively in diverse communities. Committee Meeting of Joint Committee on the Public Schools New Jersey. Legislature. Joint Committee on the Public Schools, 2015. [The School Reform Landscape Reloaded](#) Christopher H. Tienken, 2020-10-30 *The School Reform Landscape Reloaded* More Fear, Myths, and Lies peels back the curtain of school reform to examine the tensions that exist between the democratic and equitable system of public education and the emerging dual system based on elite interests aimed at profit making and decreasing education equity. The author takes an in-depth and controversial look at school reform since the launch of Sputnik I. Education reform events, proposals, and policies are examined through the lens of progressivist philosophy and critical social theory. Some of the issues and policies critiqued include the neoliberal corporate influence on education, the Sputnik myth, A Nation At Risk, standardization, charter schools, and other relevant topics. The author provides an evidence-based view of the free market reform ideas and pierces the veil of the new reform policies to find that they are not built upon empirical evidence.

but instead rest solidly on foundations of myth fear and lies Ideas for a new set of reform policies based on empirical evidence and supportive of a unitary equitable and democratic system of education are presented
