AN ISSUE OF LOCAL CONCERN – PARENT CHILD RELATIONSHIP In life, it is a reality that we become what we have been involved with and taught since we were born. The environment we live is crucial to the way our way of thinking will develop, and therefore, it will have a great impact on our actions and decisions. Parents play an important role in our lives as our examples and models. Parents and their children hold a special relationship with each other. The kind of parent-child relationship has a huge effect on the way that the child will turn out.

Parenting requires a great deal of adaptation. The parents want to develop a strong bond with their child but they also want to maintain a healthy marital relationship and adult friendships. The major cause of problems in relationship between parents and children is the generation gap. Nowadays, parents try to force the children into disciplined life. For instance, they ask the children to shut their mouth when they are expressing the views about some family issue while trying to manipulate their decisions.

Due to this children don't open up to their parents and this leads them to be suspicious of their children. When parents are in the pursuit to discover exactly what is going on, the children tend to lose trust in their parents, feeling that their parents are always trying to catch them doing something wrong. Parents, on the other hand, are more experienced in dealing with life's problems. They try to protect their children from the problems they had to face when they were young. They try different means to do this and these means have a great impact on the parent child relationship.

If the parent frequently uses punishments instead confrontations, the mental state of the child can be spoilt. But if the parent mostly spares the rod also, it spoils the child. There is no perfect way of parenting; it's more of trial and error. But parents and children can have a very good relationship only when the child as well as the parent makes an effort. Chatting together and going out for a movie or a family picnic once and giving them your presence rather than presents is more effective. As the famous saying goes.... "Don't try to perfect your child, try to perfect your relationship"

Create Your School Library Writing Center Timothy Horan, 2016-10-16 Colleges typically have writing centers to which students can bring their writing assignments to a peer tutor for assistance but most high schools and middle schools do not. This book advocates for the creation of writing centers in 7-12 schools and explains why the school library is the best place for the writing center. There is a glaring absence of writing centers in today's K-12 schools. More and more students are being asked in college entrance testing to submit samples of their writing and employers are expecting their workers to write correctly and clearly. This book addresses the critical lack of writing centers below the undergraduate level. It demonstrates how middle school and high school librarians can create writing centers in their school libraries, explains how to assist students through a one-on-one writing tutorial method, and gives students and teachers the tools for learning and understanding the complex art of writing. Author Timothy Horan, inventor of the School Library Writing Center, establishes why school libraries represent the best and most logical places to create writing centers and why school librarians are the natural choice to direct writing center operations. He then takes readers through the process of creating a writing center from original conception up through opening day. Additional topics covered include how to publicize and grow your School Library Writing Center, maintaining your writing center for efficient operation on a daily basis as well as for years to come, how to become an effective writing center director and writing tutor, the most current technology that can be used to assist in the writing composition and research process, and working with English language learner (ELL) students within your writing center.
