COURSE OBJECTIVE:

Global History & Geography is a two-year course required for graduation. All students must take and pass the New York State Regents Examination at the end of their sophomore year. The purpose of this course is for students to gain an in-depth understanding of the historical and geographic trends of societies around the world.

POLICIES:

Absences

- Why it matters: Regular attendance is directly related to student success. Although assignments and notes can be made up, the instruction missed, cannot.
- Policy: It is the student's responsibility to obtain, complete and turn in any work that was missed. Students with a legal absence will be given the equivalent amount of time to make up missed work. If a student misses a test, they should plan to stay after school to make it up the day they return.

Tardiness

- Why it matters: Time on task is essential to learning. Additionally, it is disruptive to the class when a student is late.
- Policy: If a student is tardy to class (without a legitimate pass) more than twice, he/she will receive a class detention and/or a referral each time thereafter.

Work Completion

- Why it matters: Assignments are not given as "busy work" but are rather designed specifically to help students learn, practice, and master the content. If an assignment is not completed on time, the student's unpreparedness will affect his/her ability to understand and participate in the day's lesson.
- Policy: All assignments are due at the start of class. Most assignments can be made-up by staying after school, but the student's "classroom expectations" grade will be lowered accordingly.

Plagiarism/Cheating

- Why it matters: Grades are given in order to assess what a student has learned and understands. It is immoral and unfair for a student to substitute someone else's understanding or expression for his/her own.
- Policy: Plagiarism and cheating will **NOT** be tolerated under any circumstance. The student will receive a ZERO for that assignment, as well as a referral.

Electronic Devices

- Why it matters: Electronic devices distract students from learning.
- Policy: Electronic devices should not be seen or heard in class unless the teacher explicitly states otherwise. The student will receive one warning. Any subsequent infractions will result in a referral as well as a "pocket" to keep their phone in.

Hats & Hoods

- Why it matters: Hats & hoods are not appropriate for the classroom & make regulating other classroom expectations difficult to enforce fairly.
- Policy: Hats & hoods should be removed before entering the classroom. The student will receive one warning. Any subsequent infractions will result in a referral.

Books in this series have been completely revised and brought up to date to reflect recent large scale changes in New York State s High School Regents exams Let s Review books have been especially designed to prepare students for Regents finals in New York but also make fine textbook supplements that can be used in high schools everywhere In addition to subject reviews each title contains either model exams or actual recent Regents exams with answers Many teachers prefer to use Let s Review book as classroom companion texts to Barron s Regents Exams and Answers books This review book like the current Regents exam reflects a new emphasis on basics of geography now part of the high school curriculum Formerly this book s title was Global Studies Teaching Recent Global History Diana B. Turk,Laura J. Dull,Robert Cohen,Michael R. Stoll,2014-03-05 Teaching Recent Global History explores innovative ways to teach world history beginning with the early 20th century The authors unique approach unites historians social studies teachers and educational curriculum specialists to offer historically rich pedagogically innovative and academically rigorous lessons that help students connect with and deeply understand key events and trends in recent global history Highlighting the best scholarship for each major continent the text explores the ways that this scholarship can be adapted by teachers in the classroom in order to engage and inspire students Each of the eight main chapters highlights a particularly important event or theme which is then complemented by a detailed

discussion of a particular methodological approach Key features include An overarching narrative that helps readers address historical arguments Relevant primary documents or artifacts plus a discussion of a particular historical method well suited to teaching about them Lesson plans suitable for both middle and secondary level classrooms Document based questions and short bibliographies for further research on the topic This invaluable book is ideal for any aspiring or current teacher who wants to think critically about how to teach world history and make historical discussions come alive for students

Teaching Global History Alan J. Singer, 2012-04-27 Teaching Global History challenges prospective and beginning social studies teachers to formulate their own views about what is important to know in global history and why It explains how to organize the curriculum around broad social studies concepts and themes and student questions about humanity history and the contemporary world All chapters include lesson ideas a sample lesson plan with activity sheets primary source documents and helpful charts graphs photographs and maps High school students responses are woven in throughout Additional material corresponding to each chapter is posted online at http://people.hofstra.edu/alan_j_singer The traditional curriculum tends to highlight the Western heritage and to race through epochs and regions leaving little time for an in depth exploration of concepts and historical themes for the evaluation of primary and secondary sources and for students to draw their own historical conclusions Offering an alternative to such pre packaged textbook outlines and materials this text is a powerful resource for promoting thoughtful reflection and debate about what the global history curriculum should be and how to teach it
