

Year- End Assessment
Natural Science Grade 5
 Duration : 2 hours

Total : ____/ 50

Section A: Energy

Question 1- (6 marks)

Read through the following paragraph on childhood obesity and answer the questions that follow.

The recent start of the new school year was greeted with reports of a dramatic rise in demand for extra-large uniforms for primary school pupils.

It came as no surprise to Carol. Her two nieces were wearing size 14 skirts by the age of 11, the average size worn by a grown woman in the UK.

Her son also struggled to find a uniform big enough at primary school as his weight crept up to nearly 127kg in his teens.

"You do feel judged by other people when your child gets to that size, but the harshest critic is yourself," says the mother-of-two from Birmingham, England.

"I constantly asked myself, 'What am I doing wrong?' "

It's a good question. Just over 33% of 11-year-olds are now overweight or obese and among four and five-year-olds it's 22%, according to the most recent figures from the National Child Measurement Programme.

- 1) Why is there a need for extra-large uniforms? (1)
- 2) What percentage of 11-year-olds are overweight? (1)
- 3) Remembering what you have learnt about energy, give a reason and explain why children are becoming so overweight? (2)
- 4) Explain two ways in which the children can lose weight. (2)
