Test 1. Rapid Naming

There is evidence that children likely to have reading difficulties are slower at naming familiar pictures (Wolf's Double Deficit hypothesis). This is tested here by getting them to name a series of outline pictures on a card.

Procedure

Turn to Card 1. Quickly go through the names of each picture in the top half (top four lines reproduced below), pointing to each in turn, and saying its name to the child.

Their names are :

hand boat bird tree bed, mouse cup cat fish bus, frog book leaf girl dog,
cake table horse ball hat

Practice

Say

"Now can you say the names of these pictures? Start here."

Show the child the order in which to name the pictures by pointing to the first picture and moving your finger along the lines from left to right, until you reach the last picture in the top half. If they make a mistake or hesitate, for a few seconds, tell them the right name.

Main test

When the child has finished the practice, say:

"Now I want you to try to say the names of all the pictures on this card as fast as you can. Start here (point to the first one) and go all the way down to the bottom like this (trace the route down to the bottom). Use your finger to help you keep your place. Start when I say go..."

"Ready, Steady, Go!"

Start the stopwatch when the child starts naming and stop it when the child finishes the whole sheet (i.e., both top half and bottom half). If the child
